What's in This Syllabus

Course Outline & Weighting/Grading Scales – A course outline is a nice way to see the overview of the course. All the lessons and projects are listed in the order in which they appear in your coursework. You may want to begin planning how much time you will have to devote to each unit. You'll also see the weighting and grading scales here.

Course Expectations – The course expectations are very important. You will be held responsible for all information located in the guidelines in the first section of this syllabus. You will be asked to fill out a form signifying your understanding and willingness to comply.

Projects – All of your projects for this course are contained in this syllabus. Each project is introduced with the unit number and project title, and each has its own instructions. You are not required to complete any of the projects right now; each project clearly indicates what unit it's for and when it's due. However, you may want to look at them now so you know what will be expected of you.

Essay Format & Six Traits Rubric – An explanation of essay format and the Six Traits rubric are located after the projects. Make sure you follow the essay format requirements. Also, be sure to peruse the rubric. Make sure you understand the traits and are ready to implement them before writing your projects. Take any chance provided to attend classes or watch videos teaching the traits. Finally, keep this syllabus handy in case you need to reference the essay format and rubric again as you work on your projects.
