Applied to the Language Classroom Juliana Franco Tavares/ Louise Emma Potter, 2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren t enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the

students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language *Learning Science Outside the Classroom* Martin Braund, Michael Reiss, 2012-12-06 This book shows how a wide range of contexts for learning science can be used outside of the classroom and includes learning at museums science centres and planetaria from newspapers magazines and through ICT at industrial sites and through science trails at zoos farms botanic gardens residential centres and freshwater habitats in school grounds With contributions from well known and respected practitioners in all fields of science education and through using case studies *Learning Science Outside the Classroom* offers practical guidance for teachers assistant teaching staff and student teachers involved in primary and secondary education It will help enable them to widen the scientific experience and understanding of pupils The advice in this book has been checked for safety by CLEAPSS *Resources in Education* ,1997
