The Significance of Children and Animals O. Gene Myers, 2007 Rev ed of Children and animals 1998 [A Study Guide for Charles Johnson's "Menagerie, A Child's Fable"](#) Gale, Cengage Learning, 2002 A Study Guide for Charles Johnson's *Menagerie A Child's Fable* excerpted from Gale's acclaimed *Short Stories for Students* This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust *Short Stories for Students* for all of your research needs [Animals and Other People](#) Heather Keenleyside, 2016-11-21 In *Animals and Other People* Heather Keenleyside argues for the central role of literary modes of knowledge in apprehending animal life Keenleyside focuses on writers who populate their poetry novels and children's stories with conspicuously figurative animals experiment with conventional genres like the beast fable and write the lives of mice as well as men From such writers including James Thomson Daniel Defoe Jonathan Swift Laurence Sterne Anna Letitia Barbauld and others she recovers a key insight about the representation of living beings when we think and write about animals we are never in the territory of strictly literal description relying solely on the evidence of our senses Indeed any description of animals involves personification of a sort if we understand personification not as a rhetorical ornament but as a fundamental part of our descriptive and conceptual repertoire essential for distinguishing living beings from things Throughout the book animals are characterized by a distinctive mode of agency and generality they are at once moving and being moved at once individual beings and generic or species figures every cat is also The Cat Animals thus become figures with which to think about key philosophical questions about the nature of human agency and of social and political community They also come into view as potential participants in that community as one sort of people among others Demonstrating the centrality of animals to an eighteenth century literary and philosophical tradition *Animals and Other People* also argues for the importance of this tradition to current discussions of what life is and how we might live together

Imagining Animals Caroline Case, 2025-07-30 This classic edition of *Imagining Animals* explores how the making of animal images in art therapy and child psychotherapy can act as a powerful catalyst for children who may be struggling with communication Readers will benefit from learning about the different ways that animal symbolism can support autistic children and children navigating trauma abuse and depression in engaging with the therapeutic process This essential book explores two contrasting primitive states of mind throughout the investing of the world around us with life through animism and participation mystique and the lifeless world in the states of mind encountered in children who are hard to reach Featuring a new introduction by the author subjects covered in subsequent chapters include but are not limited to Animal human relationships Animal symbolism Animals on stage in therapy and anthropomorphic animal objects Three dimensional clay work The location of the self in animals *Imagining Animals* offers a unique insight into the role and representation of animal imagery in art therapy and child psychotherapy This is an essential read for all arts and play therapists working with

children as well as adult psychotherapists interested in the use of imagery **Pretending and Imagination in Animals and Children** Robert W. Mitchell, 2002-02-21 It is well known that children's activities are full of pretending and imagination but it is less appreciated that animals can also show similar activities Originally published in 2002 this book focuses on comparing and contrasting children's and animals' pretenses and imaginative activities In the text overviews of research present conflicting interpretations of children's understanding of the psychology of pretense and describe sociocultural factors which influence children's pretenses Studies of nonhuman primates provide examples of their pretenses and other simulative activities explore their representational and imaginative capacities and compare their skills with children Although the psychological requirements for pretending are controversial evidence presented in this volume suggests that great apes and even monkeys may share capacities for imagination with children and that children's early pretenses may be less psychological than they appear Young Children's Thinking about Biological World Giyoo Hatano, Kayoko Inagaki, 2013-04-15 Presents research on the topic of young children's naive biology examining such theoretical issues as processes conditions and mechanisms in conceptual development using the development of biological understanding as the target case **Talking Animals in British Children's Fiction, 1786-1914** Tess Cosslett, 2017-03-02 In her reappraisal of canonical works such as *Black Beauty* *Beautiful Joe* *Wind in the Willows* and *Peter Rabbit* Tess Cosslett traces how nineteenth century debates about the human and animal intersected with or left their mark on the venerable genre of the animal story written for children Effortlessly applying a range of critical approaches from Bakhtinian ideas of the carnivalesque to feminist postcolonial and ecocritical theory she raises important questions about the construction of the child reader the qualifications of the implied author and the possibilities of children's literature compared with literature written for adults Perhaps most crucially Cosslett examines how the issues of animal speech and animal subjectivity were managed at a time when the possession of language and consciousness had become a vital sign of the difference between humans and animals Topics of great contemporary concern such as the relation of the human and the natural masculine and feminine child and adult are investigated within their nineteenth century contexts making this an important book for nineteenth century scholars children's literature specialists and historians of science and childhood *Sharing the Journey* David Yellin, 2017-05-12 This wonderful resource from two authors with an infectious enthusiasm for children's literature will help readers select and share quality books for and with young children Specifically focused on infants through the third grade *Sharing the Journey* contains descriptive book annotations instructive commentary and creative teaching activities tailored for those important years Extensive book lists throughout will help readers build a library of quality children's literature Books representing other cultures are included to help celebrate diversity as well as cultural connection Genre chapters include poetry fantasy and realistic and historical fiction A chapter on informational books demonstrates how young children can be introduced to and learn to enjoy nonfiction **Talking Animals in Children's Fiction** Catherine

Elick, 2015-03-07 Talking animal tales have conveyed anticruelty messages since the 18th century beginnings of children's literature. Yet only in the modern period have animal characters become true subjects rather than objects of human neglect or benevolence. Modern fantasies reflect the shift from animal welfare to animal rights in 20th century public discourse. This revolution in literary animal-human relations began with Lewis Carroll's *Alice's Adventures in Wonderland* and continued with the work of Kenneth Grahame, Hugh Lofting, P. L. Travers, and E. B. White. Beginning with the ideas of literary theorist Mikhail Mikhailovich Bakhtin, this book examines ways in which animal characters gain an aura of authority through using language and then participate in reversals of power. The author provides a close reading of 10 acclaimed British and American children's fantasies or series published before 1975. Authors whose work has received little scholarly attention are also covered, including Robert Lawson, George Selden, and Robert C. O'Brien. *Children of the Series and how They Grew, Or, A Century of Heroines and Heroes, Romantic, Comic, Moral* Faye Riter Kensinger, 1987. Children's series fiction comprises tales incorporating innocence and hard reality along with romance, wit, and character. Heavy streaks of morality diminished as the entertainment element increased. Heroes performed in a wide range of adventures but restrictions often kept heroines close to home. Series fiction peaked then waned but such writers as Beverly Cleary and Madeleine L. Engle carried on the style.
