Animal Ethics And Philosophy Questioning The Orthodoxy:

Animal Ethics and Philosophy Elisa Aaltola, John Hadley, 2015 Debate in animal ethics needs reenergizing To date philosophers have focused on a relatively limited number of specific themes whilst leaving metaphilosophical issues that require urgent attention largely unexamined This timely collection of essays brings together new theory and critical perspectives on key topics in animal ethics foregrounding questions relating to moral status moral epistemology and moral psychology Is an individualistic approach based upon capacities the best way to ground the moral status of non human animals or should philosophers pursue relational perspectives What does it mean to know animals and speak for them What is the role of emotions such as disgust empathy and love in animal ethics and how does emotion inform the rationalism inherent in analytic animal ethics theory The collection aims to broaden the scope of animal ethics rendering it more inclusive of important contemporary philosophical themes and pushing the discipline in new directions

Animals, Ethics, and Language Rebekah Humphreys, 2023-06-20 With an ever growing body of evidence on the links between different oppressions never have the debates in Critical Animal Studies surrounding intersectionality in relation to animal ethics been more important In particular the arguments related to anthropomorphic attributes of mentality to other than humans promise to provide fruitful new ground for re assessing human animal relations This book maps the central debates surrounding anthropomorphism in relation to our descriptions of animals their lives animal mentality and meaningful communication in the nonhuman world Rebekah Humphreys synthesizes the work of critical animal theorists philosophers and cognitive ethologists and provides a critical account of how the debates concerning anthropomorphism play a key role in a proper understanding of animal ethics

Ethical and Political Approaches to Nonhuman Animal Issues Andrew Woodhall, Gabriel Garmendia da Trindade, 2017-08-28 This book offers ethical and political approaches to issues that nonhuman animals face The recent political turn in interspecies ethics from ethical to political approaches has arisen due to the apparent lack of success of the nonhuman animal movement and dissatisfaction with traditional approaches Current works largely present general positions

rather than address specific issues and principally rely on mainstream approaches This book offers alternative positions such as cosmopolitan libertarian and left humanist thought as well as applying ethical and political thought to specific issues such as experimentation factory farming nonhuman political agency and intervention Presenting work by theorists and activists insights are offered from both ethics and politics that impact theory and practice and offer essential considerations for those engaging in interspecies ethics within the political turn era *Research Handbook on Animal Law and Animal Rights*

Tomasz Pietrzykowski, Birgitta Wahlberg, 2025-09-10 This Research Handbook examines contemporary animal law and its relationship to the philosophical and legal idea of animal rights Adopting an inter and multidisciplinary approach it explores the role of legal theory legal practice strategic litigation and advocacy in the global development of laws protecting animals Tomasz Pietrzykowski and Birgitta Wahlberg bring together expert contributing authors to discuss interspecies constitutionalizing and the evolution of animal law scholarship *Animal Neopragmatism* John Hadley, 2019-08-16 This book affords a neopragmatic theory of animal ethics taking its lead from American Pragmatism to place language at the centre of philosophical analysis Following a method traceable to Dewey Wittgenstein and Rorty Hadley argues that many enduring puzzles about human interactions with animals can be dissolved by understanding why people use terms like dignity respect naturalness and inherent value Hadley shifts the debate about animal welfare and rights from its current focus upon contentious claims about value and animal mindedness to the vocabulary people use to express their concern for the suffering and lives of animals With its emphasis on public concern for animals animal neopragmatism is a uniquely progressive and democratic theory of animal ethics **The Oxford Handbook of Animal Organization Studies** Linda Tallberg, Lindsay Hamilton, 2022 This interdisciplinary book lays out the contours of a new academic discipline Animal Organization Studies thus answering timely calls for more attention to nonhuman life in traditionally human centred fields in social science

Justice and food security in a changing climate Hanna Schübel, Ivo Wallimann-Helmer, 2023-08-14 The UN's Sustainable Development Goals saw the global community agree to end hunger and malnutrition in all its forms by 2030 However the number of chronically undernourished people is increasing continuously Ongoing climate change and the action needed to adapt to it are very likely to aggravate this situation by limiting agricultural land and water resources and changing environmental conditions for food production Climate change and the actions it requires raise questions of justice especially regarding food security These key concerns of ethics and justice for food security due to climate change challenges are the focus of this book which brings together work by scholars from a wide range of disciplines and a multitude of perspectives These experts discuss the challenges to food security posed by mitigation geoengineering and adaptation measures that tackle the impacts of climate change Others address the consequences of a changing climate for agriculture and food production and how the Covid 19 pandemic has affected food security and animal welfare *Food Justice in US and Global Contexts* Ian Werkheiser, Zachary Piso, 2017-07-01 This book offers fresh perspectives on issues of food justice The

chapters emerged from a series of annual workshops on food justice held at Michigan State University between 2013 and 2015 which brought together a wide variety of interested people to learn from and work with each other Food justice can be studied from such diverse perspectives as philosophy anthropology economics gender and sexuality studies geography history literary criticism philosophy and sociology as well as the human dimensions of agricultural and environmental sciences As such interdisciplinary workshops are a much needed vehicle to improve our understanding of the subject which is at the center of a vibrant and growing discourse not only among academics from a wide range of disciplines but also among policy makers and community activists The book includes their perspectives offering a wide range of approaches to and conceptions of food justice in a variety of contexts This invaluable work requires readers to cross boundaries and be open to new ideas based on different assumptions

Human/Animal Relationships in Transformation Augusto Vitale, Simone Pollo, 2022-02-11 The ethics of human animal relationships is a growing field of academic research and a topic for public discussion and regulatory interventions from law makers governments and private institutions Human animal relationships are in transformation and understanding the nature of this process is crucial for all those who believe that the enlargement of moral and legal recognition to nonhuman animals is part of contemporary moral and political progress Understanding the nature of this process means analysing and critically discussing the philosophical scientific and legal concepts and arguments embedded in it This book contributes to the discussion by bringing together the ideas and reflections of leading experts from different disciplinary backgrounds and with a range of scientific perspectives This book both provides an up to date examination of the transformation of human animal relationships and presents ideas to foster this process
