Book Bites: Snippets in Time S. R. Mallery,2018-04-03 Not Here, Not Now Anthony Dunne,Fiona Raby,2025-05-06
What it means to design at a time when for many people the future seems to have become an impossibility When reality fails us what can designers do Question design s relationship to reality as Anthony Dunne and Fiona Raby do in this exhilarating yet thoughtful journey to the edges of science philosophy and literature to find new ways of thinking about the possible and about the meaning function and place of design in that speculative world of not here not now A conceptual travelogue of sorts Not Here Not Now brings together words images and objects that capture in design form some of the ideas encountered along the way Itself a design experiment the richly illustrated book explores ways to bring these ideas into conversation with objects through imagined archives libraries glossaries taxonomies lists tales and essays The design responses in Not Here Not Now to a stone raft for example or a vegetable lamb swatches of imaginary colors a pocket universe in the home objects undergoing space time collapse are like the most compelling utopias impossible by design aiming instead to nourish the creative intellectual and imaginative ground from which new possibilities still unknown might begin to emerge *Kindle Touch For Dummies Portable Edition* Leslie H. The Ten Most Influential Buildings in History Simon Unwin, 2016-07-07 Even the most inventive and revolutionary architects of today owe debts to the past often to the distant past when architecture really was being invented for the first time Architects depend on their own imaginations for personal insights and originality but their ideas may be stimulated consciously or subliminally by particularly powerful buildings from history The Ten Most Influential Buildings in History Architecture's Archetypes identifies ten architectural archetypes that have been sources of inspiration for architects through the centuries Each archetype is analysed through distinctive examples following the methodology

established by the author in his previous books The variety of lines of enquiry each archetype has provoked in latter day architects are then explored by analysing their work to reveal ideas inspired by those earlier buildings Archetypes have a timeless relevance In adopting this approach The Ten Most Influential Buildings in History is as pertinent to contemporary practice as it is to understanding buildings from antiquity and offers insights into the bridges of influence that can operate between the two

Food in the Internet Age William Aspray, George Royer, Melissa G. Ocepek, 2013-09-06 This book examines food in the United States in the age of the Internet One major theme running through the book is business opportunities and failures as well as the harms to consumers and traditional brick and mortar companies that occurred as entrepreneurs tried to take advantage of the Internet to create online companies related to food The other major theme is the concept of trust online and different models used by different companies to make their web presence seem trustworthy The book describes a number of major food companies including AllRecipes Betty Crocker Cook s Illustrated Epicurious Groupon OpenTable and Yelp The book draws on business history food studies and information studies for its approach

The Promise of Social Enterprise Mark Sampson, 2022-07-26 Is social enterprise yet another example of the expansion of the market into all areas of life and society in this case the marketization of poverty Or does it offer genuine hope as part of a solution to some of the challenges facing contemporary society and as an example of an economy of mutuality Framing this question theologically does it offer the potential of faithful economic practice The Promise of Social Enterprise makes the case that how we answer this depends on the language we use to describe and perform social enterprise Arguing for the need to move beyond the narrow and reductionistic logic of mainstream economics the economic nature of the language of gift and mutuality is explored Drawing on the theological framework of Pope Benedict XVI and the work of John Barclay on Paul s understanding of the social implications of the Christ gift this book considers the contribution that a theology of gift with its incongruity and mutuality makes to the theory and practice of social enterprise

[A Phenomenology of Pentecostal Leadership](#) Truls Akerlund, 2018-06-18 While books on famous and infamous Pentecostal leaders abound the corpus of research on Pentecostal leadership is sparse This is unfortunate as strong and innovative leadership has been instrumental for the exceptional growth of the movement and for countless examples of abusive behaviors in Pentecostal congregations To promote effective leadership while avoiding the destructive effects of autocratic leaders it is necessary to better understand the dynamics of leadership within Pentecostalism This is the purpose of the book and Truls Akerlund fills a gap in the present knowledge on Pentecostal leadership first by discussing the extant literature on the topic and then by exploring the meaning of such leadership through a phenomenological analysis of the experiences of pastors in Pentecostal congregations The author describes a general structure of Pentecostal leadership with essential characteristics of the phenomenon locates Pentecostal leadership within the broader streams of organizational and religious leadership research and points out crucial discussions and implications to be addressed in Pentecostal organizations

Culturally Responsive Pedagogy Fatima Pirbhai-Illich,Shauneen Pete,Fran Martin,2017-03-03 This book convincingly argues that effective culturally responsive pedagogies require teachers to firstly undertake a critical deconstruction of Self in relation to and with the Other and secondly to take into account how power affects the socio political cultural and historical contexts in which the education relation takes place The contributing authors are from a range of diaspora indigenous and white mainstream communities and are united in their desire to challenge the hegemony of Eurocentric education and to create new educational spaces that are more socially and environmentally just In this venture the ideal education process is seen to be inherently critical and intercultural where mainstream and marginalized colonized and colonizer indigenous and

settler communities work together to decolonize selves teacher student relationships pedagogies the curriculum and the education system itself This book will be of great interest and relevance to policy makers and researchers in the field of education teacher educators and pre and in service teachers
