America 2020 Porter Stansberry, 2015-03-11 The United States is destroying itself from the inside out The Corruption of America is a kind of moral decay a kind of greed a kind of desperate grasp for power And it s destroying our nation These corruptions do not need to exist If individual Americans take it upon themselves to become better citizens act with rational self interest and reject the ethos of getting yours we can correct these corruptions That s why Stansberry Research founder Porter Stansberry published America 2020 The Survival Blueprint Many are referring to it as the most valuable book in America I love the book it is so clear and concise Though I have studied a bit about the smartest way to survive what is coming this put all the best ideas together in one place My hat is off to you guys J R Absolutely excellent book I need to buy another 12 for my family and friends K B I read it the first day I had it It is a great book that explains our current situation simply and very accurately I intend to continue to use this book as a guide for investing and I will recommend it to my family and friends L R This is a story all Americans should know about I don t usually buy things off the Internet but I am extremely glad that I made an exception in this case C R U.S. Democracy in Danger Adebawale Akande, 2023-10-19 Historically Donald Trump will be remembered as the first American president to be impeached twice and indicted He fed the grotesque myth that the election was stolen and summoned his supporters to storm Congress on 6 January 2021 in a bid to thwart the certification of Joe Biden s U S presidential election victory This volume vividly recounts the dramatic narrative of the January 6 Coup in America and how close we came to losing U S democracy For anyone seeking a comprehensive and multidisciplinary global overview of democracy an astute analysis of the forces that drive the dominance of the neo liberal paradigm of the last decades should look no further than this volume Yet the volume takes the issue further by vigorously documenting the decline of the U S treaty process America s dysfunctional diplomacy and the doctrine of unpredictability There is an urgent need for a massive infusion of strategic support for democracy in the United States Because come 2024 or thereafter an unfinished work might drag American democracy to a dangerous inflection point Trump who has a complete hold on the Republican party still has a stranglehold on the MAGA base no matter what he does was instrumental to the breaking of U S diplomacy Undermining the democratic legitimacy of International Law adversely affected U S foreign policy Some federal and lower courts in the judiciary of the United States pose a real threat to Americans democracy as well To that end when the principle of truth loses its relevance and meaning as benchmarks for appraisals and decisions and becomes a harmful tool for willful propaganda Everybody should be worried about U S democracy A real crisis is coming U S Democracy is at a breaking point Like a giant modern mirror standing behind democracy itself this book is a citizen s guide to saving U S Democracy Expertly drawn on global and regional examples and current literature the volume closes a gap in the multidisciplinary field Quite useful as a valuable resource as it helps us understand the shifting Trump agenda in diverse areas Essential reference across a range of subjects bringing together contributions from scholars and policymakers alike

This extraordinarily well researched and practically crafted culture inclusive text could not be more relevant or timelier It is a must for everyone This volume will help to shape the political landscape of the 21st century and will remain a vital source of inspiration for modern day scholars and political activists
