Turn Your Talents Into Profits Darcie Sanders, Martha M. Bullen, 1998 There seems to be no dearth of suggestions for making money at home as the growing number of books devoted to the topic proves But how many of these ideas are practical and creative at the same time The experienced team of Sanders and Bullen not only describes more than 100 of the more unusual business vocations but also interviews quite a few practitioners and lists specific resources to consult Each entry includes a lengthy explanation of the job and its duties and responsibilities along with a top tip e g for aspiring dog or cat breeders it s suggested as an adjunct to other pet related businesses not as a solo venture getting started and the going rate Sure to provoke chuckles are some of the recommendations albeit all bona fide such as a garden goosewear designer yes for concrete birds and a beekeeper no stings in this thought Good information well presented

any doubt that like the icon the ritual and many other items in society fetishes fetishism and fetishists must be studied and understood before we can begin to understand the complexity of present day society **Catalog of Copyright Entries** Library of Congress. popular favorites like Shirley Temple and Buck Rogers began to appeal directly to the young TV advertising blockbuster films like Star Wars and Saturday morning cartoons exploited their youthful audience in new and audacious ways Meanwhile powerful social and economic forces were transforming the nature of play in American society Cross offers a richly textured account of a culture in which erector sets and baby dolls are no longer alone in preparing children for the future and in which the toys that now crowd the racks are as perplexing for parents as they are beguiling for little boys and girls Whether we want our children to be high achievers in a competitive world or playful and free from the worries of adult life the toy store confronts us with many choices What does the endless array of action figures and fashion dolls mean Are children or parents the dupes of the film television and toy industries with their latest fads and fantasies What does this say about our time and what does it bode for our future Tapping a vein of rich cultural history Kids Stuff exposes the serious business behind a century of playthings

The Fashion Doll Juliette Peers, 2004-06 Feminists have argued that the Barbie doll perpetuates unrealistic standards of feminine beauty and undermines the credibility of women Yet for every mother who disapproves of Barbie there is a young daughter who adores her Barbie has enjoyed a prosperous and important history in Western culture but she is simply the most high profile of a series of iconic dolls produced in the past 150 years For the first time this history is explored to reveal how intimately connected dolls have been to fashion and culture from their early history right up to the present day The prominence of haute couture in popular culture suggests that the link between fashion marketing and dolls should be an obvious one Yet to date this connection has not been adequately interrogated Peers original and shrewd analysis fills a major gap in cultural studies by examining the doll's associations with concepts of femininity and fashionability Publisher World Clothing and Fashion Mary Ellen Snodgrass, 2015-03-17 Taking a global multicultural social and economic perspective this work explores the diverse and colourful history of human attire From prehistoric times to the age of globalization articles cover the evolution of clothing utility style production and commerce including accessories shoes hats gloves handbags and jewellery for men women and children Dress for different climates occupations recreational activities religious observances rites of passages and other human needs and purposes from hunting and warfare to sports and space exploration are examined in depth and detail Fashion and design trends in diverse historical periods regions and countries and social and ethnic groups constitute a major area of coverage as does the evolution of materials from animal fur to textiles to synthetic fabrics and production methods from sewing and weaving to industrial manufacturing and computer aided design Dress as a reflection of social status intellectual and artistic trends economic conditions cultural exchange and modern media marketing are recurring themes Influential figures and institutions in fashion design industry and manufacturing retail sales production technologies and related fields are also covered
