Teacher's ed Allan A. Glatthorn, 1988 *Subject Catalog* Library of Congress, **Library of Congress Catalogs** Library

of Congress, 1979 English Journal ,1979 *Secondary Textbook Review* ,1988 This book is intended as a resource for teachers and curriculum developers who select textbooks for secondary English courses It includes a compilation of 32 factual textbook reviews obtained from the application of a review instrument which was based on the California Model Curriculum Standards Grades Nine through Twelve English Language Arts and the English Language Arts Framework for California Public Schools Kindergarten through Grade Twelve The instrument described in the book was applied to selected English composition grammar and reading literature textbooks The book suggests that the resulting reviews can be used by teachers as a screening device to reduce the number of books they review and pilot studies they conduct thus educators will have more time to do in depth reviews of two or three textbooks which appear to match their course requirements and their students academic needs The book also states that the review instrument can be adapted by districts to reflect their own English objectives and test results Every review in the book includes two parts and a publisher s description which appears in the Appendix a section which depicts the extent to which the emphasis on content and process is given to each of the topics in the textbooks reviewed and a section which includes topics on content and processes which might be found only in teachers editions The book does not make assessments regarding the quality of the books reviewed but rather provides information which teachers may find useful in making quality judgments and selecting specific textbooks for English programs SR **El-Hi Textbooks and Serials in Print** ,2006 **America** ,2003 **Innovative Discipline** ,2000

Dimensions of Justice Rita Thorpe Lamb, 2010-12-03 Teacher leaders are practicing researchers They constantly investigate and reflect on innovative strategies for student success During a season of drastic change in Durham North Carolina public school teachers were forced to reconceptualize the curriculum Two separate and unequal school districts merged forcing a paradigm shift What can we learn from these teacher leaders as they reflected on the impact of the texts selected for their more diverse classes **Data Book of Social Studies Materials and Resources** ,1985 *The*

Lee, 2007-06-14 How can educators improve the literacy skills of students in historically underachieving urban high schools In this timely book the author offers a theoretical framework for the design of instruction that is both culturally responsive and subject matter specific rooted in examples of the implementation of the Cultural Modeling Project Presented here the Cultural Modeling Project draws on competencies students already have in African American Vernacular English AAVE discourse and hip hop culture to tackle

complex problems in the study of literature Using vivid descriptions from real classrooms the author describes how AAVE supported student learning and reasoning how students in turn responded to the reform initiative and how teachers adapted the cultural framework to the English language arts curriculum While the focus is on literacy and African American students the book examines the functions of culture in facilitating learning and offers principles for leveraging cultural knowledge in support of subject matter specific to academic learning This much awaited book offers important lessons for researchers school district leaders and local practitioners regarding the complex ways that cultural knowledge is constructed and plays out in classroom life in the life of a school and in the life of a whole school reform initiative
