Can Count On Clyde Freeman Herreid, Nancy A. Schiller, Ky F. Herreid, 2014-06-01 Using real stories with quantitative reasoning skills enmeshed in the story line is a powerful and logical way to teach biology and show its relevance to the lives of future citizens regardless of whether they are science specialists or laypeople from the introduction to Science Stories You Can Count On This book can make you a marvel of classroom multitasking First it helps you achieve a serious goal to blend 12 areas of general biology with quantitative reasoning in ways that will make your students better at evaluating product claims and news reports Second its 51 case studies are a great way to get students engaged in science Who wouldn't be glad to skip the lecture and instead delve into investigating cases with titles like these A Can of Bull Do Energy Drinks Really Provide a Source of Energy ELVIS Meltdown Microbiology Concepts of Culture Growth and Metabolism The Case of the Druid Dracula As the Worm Turns Speciation and the Maggot Fly The Dead Zone Ecology and Oceanography in the Gulf of Mexico Long time pioneers in the use of educational case studies the authors have written two other popular NSTA Press books Start With a Story 2007 and Science Stories Using Case Studies to Teach Critical Thinking 2012 Science Stories You Can Count On is easy to use with both biology majors and nonscience students The cases are clearly written and provide detailed teaching notes and answer keys on a coordinating website You can count on this book to help you promote scientific and data literacy in ways to prepare students to reason quantitatively and as the authors write to be astute enough to demand to see the evidence Life Span Human Development Carol K. Sigelman, Linda De George, Kimberley

Cunial, Elizabeth A. Rider, 2018-09-01 The third edition of Life Span Human Development helps students gain a deeper understanding of the many interacting forces affecting development from infancy childhood adolescence and adulthood It includes local multicultural and indigenous issues and perspectives local research in development regionally relevant statistical information and National guidelines on health Taking a unique integrated topical and chronological approach each chapter focuses on a domain of development such as physical growth cognition or personality and traces developmental trends and influences in that domain from infancy to old age Within each chapter you will find sections on four life stages infancy childhood adolescence and adulthood This distinctive organisation enables students to comprehend the processes of transformation that occur in key areas of human development This text also includes a MindTap course offering with a strong suite of resources including videos and the chronological sections within the text can be easily customised to suit academic and student needs

Coasts for People Fikret Berkes, 2015-02-11 Issues of sustainability and increased competition over coastal resources are changing practices of resource management Societal concerns about environmental degradation and loss of coastal resources have steadily increased while other issues like food security biodiversity and climate change have emerged A full set of social ecological and economic objectives to address these issues are recognized but there is no agreement on how to implement them This interdisciplinary and big picture book through a series of vivid case studies from environments throughout the world suggests how to achieve these new resource management principles in practical

accessible ways Rethinking Literary Naturalism Ian James, 2025-04-16 This book gives original readings of Proust and Quignard to elaborate a novel theory of literary naturalism Drawing on contemporary biological perspectives the book argues that despite their opposition to traditional naturalism both understand human experience meaning making and creativity as being immanent to and as emerging from shared biological life Rethinking Literary Naturalism reads contemporary biosemiotic theory Proust and Quignard alongside each other in the context of a shared genealogy that leads back into nineteenth century philosophical and literary visions of natural life that are inherited from German Romanticism and Idealism Here biological theory and forms of literary practice are recast as distinct techniques of thought that aim to situate themselves in relation to biological life Each in its own way is shown to adopt an interpretative posture that steps back into the immanence of sense and meaning that is constitutive of qualitatively lived existence Each produces a different kind of knowledge scientific literary literary philosophical of shared biological life that can be understood as distinctive variations of a saying after life The novel literary naturalism that is rethought here can be understood as post dicative and as being entirely distinct from that of mile Zola Maupassant or the Goncourt brothers *Top-Down Causation and Emergence* Jan Voosholz, Markus Gabriel, 2021-08-06 This book presents the latest research conducted by leading philosophers and scientists from various fields on the topic of top down causation The chapters combine to form a unique interdisciplinary perspective drawing upon George Ellis s extensive research and novel perspectives on topics including downwards causation weak and strong emergence mental causation biological relativity effective field theory and levels in nature The collection also serves as a Festschrift in honour of George Ellis 80th birthday The extensive and interdisciplinary scope of this book makes it vital reading for anyone interested in the work of George Ellis and current research on the topics of causation and emergence

General Pedagogy Martha M. A. Zama, Margaret Nalova Endeley, 2023-02-24 General Pedagogy A Guide to Effective Teaching demystifies the scientific art of teaching by providing facts principles and concrete examples in real life situations such that neither the novice teacher who peruses it will stutter in front of students on the first day of school nor will the experienced teacher write and execute the same old lesson plans on that day The best teachers are those who show you where to look but don t tell you what to see is a popular quote attributed to Alexandra K Trenfor which aptly summarises the kind of teachers this book intends to produce when used as a teacher training resource Real teachers facilitate learning they do not simply tell learners the answers to their questions and concerns Accordingly the authors take the readers through well researched themes in the academic discipline of teaching wherein they present analyse and discuss pertinent issues Although they provide useful suggestions for teaching success the authors encourage teachers to interpret facts ideas and suggestions presented against the sociocultural contexts of their practice The materials are presented creatively while adding a personal touch intended to facilitate effective and efficient learning For coherence and better comprehension the book has been carefully crafted in eighteen chapters lodged in six parts The first part introduces the reader to the concepts of teaching and

teaching effectiveness The theoretical underpinnings of these concepts are brought out in the second part which paves the way for the third part that describes generic teaching approaches strategies and methods Part four and five comprise essential teaching skills and teaching tools for the 21st century while part six wraps up with the transition from teacher training laboratories to classrooms in the real world The last two chapters intentionally prepare the teacher to overcome challenges of professional work in contemporary African classrooms **Professional Journal of the United States Army**
