Amazing Science Facts In The Bible:

Modern Science in the Bible Ben Hobrunk, 2011-02-08 Modern Science in the Bible shows that the Bible is not out of date but that it was in fact thousands of years ahead of science when it was written. Used as a reference tool or merely to underline the trustworthiness of the Bible, this book succinctly demonstrates hard scientific facts from the Bible that modern science has only recently discovered. Ben Hobrunk, although a biologist, writes in layman's terms to describe current scientific debates and shows where scientific theories or conclusions differ from the Bible and offers explanations of the alleged differences. In *Modern Science in the Bible*, Hobrunk not only defends the Bible; he lets others share his astonishment about the relevance of biblical rules. The book underlines the reliability of the Bible in the field of science and presents hard scientific facts that are structured around themes such as combating epidemics, hygiene, nutrition, and evolution.

Science Facts in Bible Wisdom Harry W. Miller, 2006-03-21 Unlike most books attempting to reconcile the facts of science with the wisdom of the Holy Bible, Harry W. Miller's book *Science Facts in Bible Wisdom* does not waste the reader's time with long convoluted arguments. Instead, it cuts right through to the substantive evidence to show that today's science is discovering increasingly the very truths that the Bible's wisdom has always contained, citing scientists and the Bible. The bottom line: Truth concerning Reality, both for science and the Bible, is that it is not relative or divisive in nature; it is instead relational and unifying. Jesus Christ being the Keystone evidence of that Fact, by the complementary holistic nature of his mortal human yet divine Person. Thus, the Bible tells us: Since the creation of the world, his God's invisible nature, namely his eternal power and deity, has been clearly perceived in the things that have been made, most particularly in the Person of Jesus Christ, born of woman. Romans 1:20. *Science Facts in Bible Wisdom* is in three parts. The first two focus on sciences and the Bible's correlative information concerning the creation of the universe, the human person, and the emergence of the subjective consciousness with its two tracks of awareness. The third part focuses upon the more intimate aspects of personal or experiential knowledge, such as prayer, miracles, and visions, including two of the author's own, as well as the documentation of near-death and out-of-body experiences by scientists of the International Association of Near-Death Studies (IANDS). Within the heart of each human being, there resides a deep-seated spiritual desire to know, in both an intimate and substantive fashion, that ultimate Source of their existence, most often referred to as God. Humanity is forever reaching out to that ultimate Source, very much as Adam is in Michelangelo's classic Sistine Chapel painting, *The Creation of Adam*. The NASA photo appearing on the cover of *Science Facts in Bible Wisdom*, like Michelangelo's famous painting, is evidence that even with today's secular culture, humanity continues to pursue its innate, even if often subconscious, spiritual imperative to know its Creator, not just spiritually but in truth. Today, however, the search for credible substantive evidence and that transcendental Truth, God, for which it speaks, comes evermore frequently by way of the amazing new empirical findings of science. Thus, on this book's cover, in place of Adam's arm reaching out to God, we see instead the space shuttle's robot arm reaching out to the

visible evidence of God's invisible nature the things that have been made Rom 1:20 As this book attempts to show truth of any kind must always rest upon relevant evidence But it can not rest upon self righteous ideologies nor the blind beliefs of the large assortment of locally popular human traditions habits Evidence and reason are always necessary whether the evidence required and the truth being pursued are of a more visible tangible kind as at a crime scene or if they are of a less visible or ethereal nature In the latter case the truth and that evidence which speaks for it must necessarily be articulated by means of an indirect analogical or symbolic form of language The only language which can in effect make known more clearly the particular nature of such mysterious invisible truths by making them more concrete to the limited cognitive scope of the human mind Such a language must be used by both science and religion The symbolic form of language favored by science is one comprised of mathematical symbols On the other hand the language favored by religion such as that used in the Holy Bible must often take on a metaphorical or figurative form in order to make those spiritual things that can not now be seen more concrete to the human understanding

The Facts on Why You Can Believe the Bible John Ankerberg, John Weldon, 2011-07-04 The Bible is certainly the bestselling book of all time But it is so much more than just a well loved collection of history prophecy parable and poetry If we believe the Bible is the very Word of God isn't it imperative to know that what we read is reliable and can be trusted This book answers questions about the uniqueness and inerrancy of the Christian Scriptures from history archaeology science and logic as they examine the accuracy of the biblical text expose current critical fallacies show how fulfilled prophecy is the irrefutable result of divine inspiration Discover why you can believe the Bible is still God's message of love and hope for today

The Biblical Basis for Modern Science Henry Morris, 2020-02-11 The Bible is Indeed a Book of Science Revealed By God We live in a scientific age and the proliferation of scientific knowledge and the resulting technologies seem almost endless Scientific discoveries and developments however can be a danger as well as a blessing to mankind The modern world is desperately in need of God's own wisdom concerning the purpose and meaning of true science When you move beyond modern assumptions and false preconceptions the Bible is found to not only reveal a thoroughly modern perspective on the real facts and principles of science but also to provide wisdom and guidance concerning its proper role in human life Biology is the science of life and Christ himself is life Geology is the science of the earth and He is the Creator of the ends of the earth We also could speak of other sciences but all must ultimately be ascribed to Christ True knowledge of any component of His creation must depend ultimately on the knowledge of Christ and His Word Reveals biblical insights for cosmology astronomy physics thermodynamics chemistry geology paleontology biology anthropology and more Brings to light how scientific and statistical evidence rationally evaluated favor God over evolution

The Great Bible Dig Bonnie M. Gulan, 2001 Some 40 years ago I as a searching seeking questioning mortal started with studying the Bible The Old and New Testaments Then just the New Testament then just Jesus Sayings I then started to dig back into the New Testament where I found just the sayings of Mary Joseph John the Baptist and

compared their contents and volume to Just the Sayings of Jesus What I found led me to continue digging on into the writing letters Epistles of Paul and Peter etc These excavations and Scriptural expose which some might even call controversial have been collected into what I call The Great Bible Dig Dig One of The Great Bible Dig uncovers some interesting questions concerning the Brain Life and Jesus and allows the reader to ask the question WHY Dig Two of The Great Bible Dig uncovers Words puzzling words as well as preserving words and allows the reader to ask the question WHAT Dig Three of The Great Bible Dig allows one to SEARCH His Sayings and your thinkings and will give the reader a useful alternative for changing one s thought and thinkings Dig Four of The Great Bible Dig allows one to SEEK His Light His Truth and His Righteousness

Marsden,2006-02-23 Many American s today are taking note of the surprisingly strong political force that is the religious right Controversial decisions by the government are met with hundreds of lobbyists millions of dollars of advertising spending and a powerful grassroots response How has the fundamentalist movement managed to resist the pressures of the scientific community and the draw of modern popular culture to hold on to their ultra conservative Christian views Understanding the movement s history is key to answering this question Fundamentalism and American

Culture has long been considered a classic in religious history and to this day remains unsurpassed Now available in a new edition this highly regarded analysis takes us through the full history of the origin and direction of one of America s most influential religious movements For Marsden fundamentalists are not just religious conservatives they are conservatives who are willing to take a stand and to fight In Marsden s words borrowed by Jerry Falwell a fundamentalist is an evangelical who is angry about something In the late nineteenth century American Protestantism was gradually dividing between liberals who were accepting new scientific and higher critical views that contradicted the Bible and defenders of the more traditional evangelicalism By the 1920s a full fledged fundamentalist movement had developed in protest against theological changes in the churches and changing mores in the culture Building on networks of evangelists Bible conferences Bible institutes and missions agencies fundamentalists coalesced into a major protest movement that proved to have remarkable staying power For this new edition a major new chapter compares fundamentalism since the 1970s to the fundamentalism of the 1920s looking particularly at the extraordinary growth in political emphasis and power of the more recent movement Never has it been more important to understand the history of fundamentalism in our rapidly polarizing nation Marsen s carefully researched and engrossing work remains the best way to do just that **Christianity: true or false** Robert

Witnessed God's Creation Victor W Chang , Guoping Song,2020-07-04 Who are we Where are we from These questions have troubled people for centuries Textbooks have long taught us that humans evolved from apes Today a new science Molecular Anthropology tells us that nearly 7 billion humans in the world share a common grand grand father the Y chromosome Adam And they also share a common grand grand mother the Mitochondrial Eve The difference in DNA coding is only one thousandth between any persons in the world After reading this book you will be convinced that humans could not have been the result of Evolution In 1987 Professor Allan Wilson s research team at UC Berkeley proposed the Mitochondrial Eve Theory by DNA coding that all humans originated from one woman who lived about 200 000 years ago In 1995 Drs Dorit et proposed the Adam Theory by DNA coding of Y Chromosomal that all humans originated from one man There are two kinds of DNA encoding in our body chromosomal DNA and mitochondrial DNA The chromosome consists of three types autosome Y chromosome and X chromosome The Eve Theory is founded on the mitochondrial DNA while the Adam Theory is founded on the Y chromosome So what can we see from the autosome The simple biological fact that there are no differences between the autosomes of male and female tells us a striking truth that is the autosome of all men in the world must come from only one original version and cannot be produced randomly Therefore the authors of this book have established a The only one Adam theory by the consistency of autosomal DNA coding of men and women All human beings on earth came from him and the earliest female ancestor came from this male ancestor In addition we also provide you with an answer which science cannot offer Creationism **Interdisciplinary Perspectives on the Authority of Scripture** Carlos R.

Brilliant Bloopers Plammoottil V. Cherian Ph.D,2025-09-10 Brilliant Bloopers Vol I and II are sequel to the first book Origins of the Universe Life and Species New Perspectives from Science and Theology In this absorbing book Dr Cherian explains the numerous anatomical and paleontological blunders evolutionists provide as evidence some of which are fraud and others illogical and unscientific The Creator equipped every organism with what it needs for sustenance survival and their role in the ecosphere In Brilliant Bloopers the author discusses the many blunders of the theory of evolution that has become the core biological curriculum against the eternal truth that God created the universe and everything within it in a systematic order Author stresses the fact that if it took ten to 100 million years for a new species to emerge by chance mutation we would have only few species in nature and planet earth would have been a heap of dirt With a wealth of knowledge in Life Science and Theology and fifty years of research and teaching in varied subjects Dr Cherian explains The systematic order of creation schemed as evolutionary steps The hoax of homologous structures and the

fraudulent claim of Archaeopteryx and Piltdown Man provided as evidence of missing links The comparison of anatomical structures as blunders as God designed every creature for its survival and ecological functions DNA is God's imprint on every species That the human body is fearfully and wonderfully knitted together and God amazingly organized the coordinated physiology that sustains life that evolution could never do The ecological principle of food chain is God's way of feeding all creatures and recycling of energy and matter according to thermodynamics How evolution theory has shattered the faith of millions For the first time ever in science or theology Dr Cherian explains the molecular biology of Jesus conception and his blood He dispels the theory of evolution and reveals the unknown God as a KNOWN God Scientists who go about teaching that Evolution is a fact of life are great con men and the story they are telling may be the greatest hoax ever In explaining evolution we do not have one iota of fact Dr T N Tahmisian a former U S Atomic Energy Commission physiologist Today our duty is to destroy the myth of evolution considered as a simple understood and explained phenomenon which keeps rapidly unfolding before us The deceit is sometimes unconscious but not always since some people owing to their sectarianism purposely overlook reality and refuse to acknowledge the inadequacies and falsity of their beliefs Pierre Paul Grasse past President French Academie des Science Evolution of Living Organisms Academic Press New York 1977 p 8 Any suppression which undermines and destroys that very foundation on which scientific methodology and research was erected evolutionist or otherwise cannot and must not be allowed to flourish It is a confrontation between scientific objectivity and ingrained prejudice between logic and emotion between fact and fiction In the final analysis objective scientific logic has to prevail no matter what the final result is no matter how many time honoured idols have to be discarded in the process After all it is not the duty of science to defend the theory of evolution and stick by it to the bitter end no matter what illogical and unsupported conclusions it offers If in the process of impartial scientific logic they find that creation by outside intelligence is the solution to our quandary then Let's cut the umbilical cord that ties us down to Darwin for such a long time It is choking us and holding us back Every single concept advanced by the theory of evolution and amended thereafter is imaginary as it is not supported by the scientifically established probability concepts Darwin was wrong The theory of evolution may be the worst mistake made in science I L Cohen Darwin Was Wrong A Study in Probabilities PO Box 231 Greenvale New York 11548 New Research Publications Inc pp 6 8 209 210 214 215 I L Cohen Member of the New York Academy of Sciences and Officer of the Archaeological Institute of America

Faith and Science in the 21st Century Peter M. Wallace, 2018-08-17 With contributions from eight noted theologians this book builds on popular videos from the Day 1 radio Science or faith The battle rages from millennials and GenXers questioning the relevance of religion to older adults who doubt the validity of science and vice versa but these two are not mutually exclusive They can in fact be mutually enriching and complimentary once their proper domains are understood and respected The Episcopal Church with its tradition of the via media offers an ideal setting for conversations seeking to bridge the often antagonistic perspectives on both sides Faith and Science in the

21st Century presents a way to start that conversation Built on existing videos produced by the popular Day 1 program with assistance from a John Templeton Foundation grant this series features notable faith leaders across the denominational spectrum in 3 to 5 minute video presentations on scientific topics in which they are experts Intended for use in a variety of settings including congregations schools and campus ministries it can be presented as an eight session series of studies but each session can also stand on its own for a one time formation offering A single video download will offer all video presentations This Leader Guide enables facilitators to foster fruitful discussions of each session topic It includes an introduction about the program and how it can be used and eight detailed session plans to utilize with a downloadable video sold separately on the Day 1 website

Listen Caleb Anderson, 2015-11-18 The idea of prayer speaking personally with God might sound strange to you even more hearing from God But it doesn't have to be Hearing from God is not just a privilege limited to prophets of old it is something that happens in our everyday moments God is talking to us all the time in many ways The question is not whether God speaks to you The question is are you listening Caleb Anderson's *Listen* will open your ears eyes heart and soul to the words God is speaking into your life Whether prayer is something new for you or you have lived your whole life in faith it will encourage you to hear God in new ways If you can stop and learn to listen it just might change everything
