Amazing Scientific Secrets Of The Bible:

Amazing Scientific Secrets of the Bible Keith Gino Barr, Sr.,2012-08-08 The Bible makes many scientific statements of facts so profound that only in the last few decades could we begin to understand them Thousands of years ago the Hebrew prophets made scientific statements about meteorology oceanography biology medicine fire science astronomy nuclear physics the hydrology cycle and the Earth s typography to name a few Some of these are so profound that just one of them alone proves the Bible is true These statements are so profound that you must either conclude that God told these prophets this information or that this race of shepherds had access to computers weather satellites cameras and advanced technology amost 4000 years ago and never used it for any other purpose There is no other explanation **The Forbidden Secret**

Jonathan Gray,2011-05-15 The one thing that isn t a secret is that our world is in a monstrous MESS A murderous mob has seized control of our planet They have chilling plans for you and your family The elite have sworn to suppress the forbidden secret discredit it and keep it from the public They have deceitfully manipulated every aspect of our society mentally conditioning us to doubt ignore or reject the survival strategy offered in *The Forbidden Secret* But a powerful figure is set to smash their agenda Meanwhile a rescue plan is in place and simple steps will guarantee your survival [Portraits of the](#)

[Great Bible-believing Scientists](#) Franjo Stvarnik,2018-10-29 More than 60 years ago remembered Mr Stvarnik I read the books *From Ancient Philosophy to Modern Science of Atoms* by prof dr Ivan Supek and the *Images from the Lives of Great Scientists* by prof dr Milutin Milankovic and for me these are still the most beautiful scientific texts From that time as a much loving hobby Mr Stvarnik has studied biographies of great scientists I have grown up in an atheistic country he once said and therefore it was a surprise to find that there were very few atheistic or agnostic scientists the majority of them were some kind of believers in God Actually a good number of the greatest scientific minds were or are Bible believing Christians That realization along with discoveries of some deliberate distortions of historical facts that made certain Bible believing scientists look as having an atheistic bent prompted writing a book *The Portraits of the Great Bible believing Scientists* that was published in Croatian and in Serbian languages Now he has written the same in English but since many years elapsed from the mentioned publications he enriched the text with new findings and added 12 new portraits into the book **The Secret**

Doctrine: The Synthesis of Science, Religion, and Philosophy (Complete) Helena Petrovna Blavatsky,2020-09-28 Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism

Any thing more erroneous than this could hardly be imagined It has enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett s work ceased to be esoteric from the moment they were made public nor did the book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed from it for long ons and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception From the first however protests were raised by Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budh ism

Moses and Joshua in the same order as those in the life of Christ How could numerous independent authors have known about the steps of Christ in such detail hundreds to over a thousand years in advance The Author behind these accounts somehow can see events in the distant future How can this be Could He be the Omniscient One called God **Scientific Corroborations of Theosophy ; Or, H.
