the rise of consumer culture worldwide the prevalence of inequality and racism and the challenges of technology **Under the Spell of Orpheus** Judith E. Bernstock,1991 This comprehensive view of the Orpheus myth in modern art focuses on an extremely rich artistic symbol and cuts through all the clichés to explore truly significant problems of meaning The author takes a new approach to the iconography of major modern artists by incorporating psychological and literary analysis as well as biography The three parts of the book explore the ways in which artists have identified with different aspects of the often paradoxical Orpheus myth The first deals with artists such as Paul Klee Carl Milles and Barbara Hepworth In the second Max Beckmann Oskar Kokoschka and Isamu Noguchi are discussed Artists examined in the final part include Pablo Picasso Jacques Lipchitz Ethel Schwabacher and Cy Twombly The author documents her argument with more than sixty illustrations

German Expressionist Painting Peter Selz,2023-04-28 Published in 1957 German Expressionist Painting was the first comprehensive study of one of the most pivotal movements in the art of this century When it was written however German Expressionism seemed like an eccentric manifestation far removed from what was then considered the mainstream of modern art But as historians well know each generation alters the concept of mainstream to encompass those aspects of the past which seem most relevant to the present The impact of German Expressionism on the art and thought of later generations could never have been anticipated at the time of the original writing of this book During the subsequent years an enormous body of scholarly research and an even larger number of popular books on German expressionist art has been printed Numerous monographs and detailed studies on most of the artists exist now and countless exhibitions with accompanying catalogues have taken place Much of this new research could have been incorporated in a revised edition and the bibliography certainly could have been greatly expanded to include the important writings which have been published in Germany the United States and elsewhere since this book was originally issued The author however was faced with the choice of reprinting the original text with only the most necessary alterations such as updating the captions to indicate present locations of the paintings or the preparation of a revised text and bibliography Desirable as a revision appeared present printing costs would have priced the paperback out of reach for students It is for this reason that I decided to reissue

the original text which stands on its own as a primary investigation of German Expressionist Painting *World War I and the Visual Arts* Jennifer Farrell, Donald J. La Rocca, 2017-11-02 Published on the occasion of the centenary of World War I this Bulletin which accompanies the related exhibition World War I and the Visual Arts on view at The Met until January 7 2018 explores the myriad and often contradictory ways in which artists responded to the world's first modern war Drawn primarily from The Met's collection of works on paper and supplemented with loans from private collections both presentations move chronologically from the initial mobilization in early August 1914 to the tumultuous decade that followed the armistice of November 1918 Ranging from expressions of bellicose enthusiasm to sentiments of regret grief and anger the selected works from prints photographs and drawings to propaganda posters postcards and commemorative medals powerfully evoke the conflicting emotions of this complex period
