benefit from a microservice based architecture Microservices will keep even small and medium teams productive by keeping the pieces of your system focused and decoupled Discover the basics of message based architectures render the same state in different shapes to fit the task at hand and learn what it is that makes something a monolith it has nothing to do with how many machines you deploy to Conserve resources by performing background jobs with microservices Deploy specialized microservices for registration authentication payment processing e mail and more Tune your services by defining appropriate service boundaries Deploy your services effectively for continuous integration Master debugging techniques that work across different services You ll finish with a deployable system and skills you can apply to your current project Add the responsiveness and flexibility of microservices to your project no matter what the size or complexity What You Need While the principles of this book transcend programming language the code examples are in Node js because JavaScript for better or worse is widely read You ll use PostgreSQL for data storage so familiarity with it is a plus The books does provide Docker images to make working with PostgreSQL a bit easier but extensive Docker knowledge is not required

Maxwell Prince, Wyatt Kennedy, Skottie Young, Mirka Andolfo, Brenden Fletcher, Chris Giarrusso, Kyle Higgins, Wes Craig, Patrick Kindlon, Andrea Mutti, Mart[n Morazzo, Luana Vecchio, 2022-05-25 The celebration of Image Comics 30th anniversary continues with the second issue in a 12 issue anthology featuring all new stories by some of the biggest and best names in comics This issue features the second chapters of two 12 part stories The Blizzard by GEOFF JOHNS ANDREA MUTTI and Red Stitches by BRENDEN FLETCHER ERIC HENDERSON plus the second installments of three shorter serials Gospel for a New Century by WYATT KENNEDY LUANA VECCHIO Hopeless by MIRKA ANDOLFO and Shift by KYLE HIGGINS DANIELE DI NICUOLO Plus An all new ICE CREAM MAN short story by W MAXWELL PRINCE and MART N MORAZZO the beginning of WES CRAIG s KAYA the opening installment of a 10 part serial by PATRICK KINDLON MAURIZIO ROSENZWEIG and the continuation of the all new ongoing comic strip by SKOTTIE YOUNG *The Invisible Hand* Charlie Tims, Shelagh Wright , 2013-04-01 The economic crisis has squeezed the cultural sector across the world But cut backs closed theatres and moth balled arts centres are only half of the story When critics and historians look back to our times they ll be less preoccupied with the art that wasn t made and more with the art that was Art that could explain how we arrived here art that could do something about it and art that showed the possibility of different ways of living Not for the art that was shaped by the economy but art that forged alliances with the people and forces that could reshape it That s what this paper is about Inside IETM and beyond we found artists keen to explore what people value and whether the economy actually reflects it We found fringe institutions networks and conferences attempting to open up a space to question and attack judgements made by politicians in the name of economy We found artists active in their communities experimenting and rehearsing with their own micro economies as co operatives time banks and demonstrations of different forms of community Where politics has been asphyxiated by a cadre of economists art is administering a kiss of life But neither artists nor the cultural sector are separate from the economy The answer to inequality democratic disengagement and climate change is not simply more art But rather a different place for art Artists who question values of the economy inevitably end up questioning the values of the cultural sector In the face of more politically engaged socially curious art new networks institutions and approaches are needed to support it Art not just as an input or output of an economy but art that challenges the assumptions on which the economy is based
