Inquiry in Music Education Hildegard C. Froehlich, Carol Frierson-Campbell, Debbie Ann Rohwer, Marie McCarthy, Darryl A. Coan, 2013. Provides an introduction to research and scholarship in music education. This textbook covers topic formulation, information literacy, reading and evaluating research studies and planning and conducting original studies within accepted guidelines based on research conventions in music, the other arts, education and the humanities. Skills in research and scholarship introduce students to the language and protocols by which to succeed in today's competitive market of grant writing, arts advocacy and public outreach as a contributing member of the community of music educators. Following the legacy begun by Rainbow and Froehlich in *Research in Music Education* published in 1987, the objectives of this book are: To expand what is meant by music education and research; To help students find their niche in those definitions; and To teach tangible skills that are useful for music educators with diverse instructional goals and career aspirations. Introduction to Network Simulator NS2 Teerawat Issariyakul, Ekram Hossain, 2008-12-10. An Introduction to Network Simulator NS2 is a beginners guide for network simulator NS2, an open source discrete event simulator designed mainly for networking research. NS2 has been widely accepted as a reliable simulation tool for computer communication networks both in academia and industry. This book will present two fundamental NS2 concepts: i) how objects (e.g. nodes, links, queues, etc.) are assembled to create a network and ii) how a packet flows from one object to another. Based on these concepts, this book will demonstrate through examples how new modules can be incorporated into NS2. The book will give an overview on simulation and communication networks, provide general information (e.g. installation, key features, etc.) about NS2, demonstrate how to set up a simple network simulation scenario using Tcl scripting language, explain how C and OTcl (Object oriented Tcl) are linked and constitute NS2, show how NS2 interprets a Tcl Script and executes it.
