The End of Literary Theory Stein Haugom Olsen,1987-03-19 The essays in this collection are concerned with the philosophical problems that arise in connection with the understanding and evaluation of literature such problems as the relationship between the work and the author authorial intention between the work and the world reference and truth the definition of a literary work and the nature of literary theory itself Professor Olsen attacks many of the orthodoxies of modern literary theory in particular the enterprise to build a comprehensive systematic literary theory His own work is informed by a consistent perspective the assumption that literature is a social institution governed by conventions and that answers to problems of interpretation and

appreciation can be found only through an analysis of these conventions This is an important book for scholars and students of literary theory and philosophy especially for those who see an ever increasing cross fertilization between the two disciplines

The Structure of Literary Understanding Stein Haugom Olsen,1978-04-13 How does a reader respond to a work of literature and how does he begin to evaluate it Mr Olsen attempts to answer these and related questions The book is in two parts In the first three chapters the author demolishes established theories that literature has a special language provides a heightened insight into truth and has emotion as its prime currency In the remaining chapters Mr Olsen constructs and fully illustrates the theory that understanding of a work of literature comes in two complementary stages first judgements about the author s aesthetic intentions interpretation second appreciation of the aesthetic qualities of the work evaluation At the end of his argument attempting an answer to the question Why is literature important Mr Olsen characterizes literature as an institution and thus forges links with contemporary philosophy which sees all human action as ordered and defined by social institutions

Contemporary Literary Theory George Douglas Atkins,Laura Morrow,1989

Literary Theory: A Complete Introduction Sara Upstone,2017-05-04 Literary theory has now become integral to how we produce literary criticism When critics write about a text they no longer think just about the biographical or historical contexts of the work but also about the different approaches that literary theory offers By making use of these they create new interpretations of the text that would not otherwise be possible In your own reading and writing literary theory fosters new avenues into the text It allows you to make informed comments about the language and form of literature but also about the core themes concepts such as gender sexuality the self race and class which a text might explore Literary theory gives you an almost limitless number of texts to work into your own response ensuring that your interpretation is truly original This is why although literary theory can initially appear alienating and difficult it is something to get really excited about Imagine you are standing in the centre of a circular room with a whole set of doors laid out around you Each doorway opens on to a new and illuminating field of knowledge that can change how you think about what you have read perhaps in just a small way but also perhaps dramatically and irrevocably You can open one door or many of them The choice is yours Put the knowledge you gain together with your own interpretation however and you have a unique and potentially fascinating response Each

chapter in Literary Theory A Complete Introduction covers a key school of thought progressing to a point at which you ll have a full understanding of the range of responses and approaches available for textual interpretation As well as focusing on such core areas as Marxism Modernism Postmodernism Structuralism and Poststructuralism this introduction brings in recent developments such as Eco and Ethical Criticism and Humanisms *reading, writing and the study of literature* w.biddle toby fulwiler, 1989
