Power, Politics, Law Radhika Withana, 2008 This book hypothesises that an ILI perspective offers a better explanation of the law State behaviour relationship during international crises than rival explanations grounded in positivism realism or functionalism Four case studies of State behaviour of the US the Soviet Union and the PRC during the Korean War 1950 1953 of the US and UK during the Suez crisis 1956 of the US and the Soviet Union during the Cuban Missile Crisis 1962 and of the US and an alliance of Latin American States during the Dominican Republic crisis 1965 are used to test the hypothesis The findings confirm the greater explanatory efficacy of ILI and demonstrate that the significance of international law to foreign policy decision making during international crises is more than that of deterring the use of force as is assumed by rival theoretical approaches grounded in a rule book image of international law Back cover

Cinematic Digital Television Chris Comerford, 2022-12-20 Chris

Comerford explores cinematic digital television as an artistic classification and an academic object of study and illuminates

the slippage in definitions of previously understood media forms The growth of television as an artistic informative medium has given rise to shifts in the aesthetic style of the programmes we watch and this book outlines these shifts along with the contemporary debates and critical theory surrounding them Comerford looks at the forms and aesthetics of television the production standards influencing streaming television and the agency of audiences and provides case studies of key TV shows illustrating these shifts including Twin Peaks The Return WandaVision Hacks and Russian Doll Navigating the levels of production and reception in cinematic digital television the book uses film inspired TV as a lightning rod for understanding our narrative screen media landscape and the classifications we use to negotiate it As an essential reading for both scholars and students of media and television studies this book provides a much needed consideration of the changing landscape of television
