2025 Edition Gothic Romance:

The Development of the English Novel Wilbur L. Cross, 2025-01-14 The Development of the English Novel by Wilbur L. Cross is a comprehensive and scholarly exploration of one of literature's most enduring and influential forms. Tracing the evolution of the English novel from its earliest roots to its mature expression, Cross examines the cultural, social, and artistic forces that shaped this dynamic literary tradition. With meticulous research and insightful analysis, Cross delves into the works of pioneering authors from the realism of Daniel Defoe and the satire of Jonathan Swift to the romanticism of the Brontë sisters and the social critiques of Charles Dickens. He examines the novel's growth as a vehicle for storytelling, its experimentation with form, and its role in reflecting and shaping the values of society. Cross also highlights the rise of the psychological novel, the influence of historical events on literary themes, and the diversification of voices in later periods. More than a historical account, this book is a celebration of the novel's power to illuminate the human experience. Cross weaves literary analysis with vivid portraits of the authors themselves, contextualizing their contributions within the broader framework of literary and cultural history. His clear and engaging prose makes this work accessible to both scholars and general readers with an interest in literature. Whether you are a student of English literature, a lover of novels, or a curious reader seeking to understand the origins and evolution of this beloved genre, *The Development of the English Novel* offers an illuminating journey through the milestones of literary achievement and the enduring legacy of English storytelling. Brazil Bulgaria Palestine Ukraine and former Yugoslavia Why did the road novel emerge and why does it persist What does it do and why has it traveled so widely Myka Tucker Abramson draws from an archive of more than 140 global road novels from over twenty countries challenging dominant conceptions of the road novel as primarily concerned with American experiences and subjectivities Grounding her analysis in materialist theories of genre world ecology and commodity frontier frameworks and post 45 American literary studies Tucker Abramson persuasively argues that the road novel is a genre specific to coterminous with and revealing of US hegemony s global trajectory Shifting our focus from Americanness to the fraught geopolitics of US Empire from the car to the built environment through which it moves and from passengers to those left behind Tucker Abramson remaps the road novel elucidating the genre s unique ability both to reveal the violent and vertiginous processes of capitalist modernization and to obfuscate these harsh truths through seductive narratives of individual success and failure
