Short stories

1. All is fair in love and war (Jan van tonder):
 - the story is about Edwill, Helena and Waldemar, and they are in a love triangle.
 - Edwill and Lita have a plan to get Waldemar and Helena away from each other. En die plan kom by Edwill op toe die Afrikaanse onderwyser hulle die storie van Helena van Troje vertel.
 - "In die klas het die Afrikaanse onderwyser hulle eendag die storie van Helena van Troje vertel en van die houtperd waarin soldate weggesteek is sodat hulle die stad onopgemerk kon binnegaan. En daar en dan het Edwill 'n plan gekry: hy sou met Waldemar vriende maak."

Karakters:

- ↘ Helena - Herinner ons aan klassieke karakter Helena van Troje
- ↘ Edwill - Verlief om Helena. Beraam plan om haar hart te wen.
- ↘ Waldemar - aantreklik, goeie rugbyspeler, nie goed met kommunikeer/woorde nie, Helena se kêrel
- ↘ Lita - Edwill se suster. Help Edwill om Helena se hart te wen.

Die aanvangsoomblik is wanneer Edwill besef dat hy verlief is op Helena en dit met sy sussie deel. Ons sien dat die spanning begin bou wanneer Lita beweer dat hulle die Achilleshiel in die verhouding opgespoor het.

insident waar Edwill aanbied om Helena se boeties besig te hou sodat sy meer tyd saam met Waldemar kan deurbring en Helena

Translanguaging, Coloniality and Decolonial Cracks Robyn Tyler, 2023-01-13 In this linguistic ethnography of bilingual science learning in a South African high school the author connects microanalyses of classroom discourse to broader themes of de coloniality in education The book challenges the deficit narrative often used to characterise the capabilities of linguistically minoritised youth and explores the challenges and opportunities associated with leveraging students full semiotic repertoires in learning specific concepts The author examines the linguistic landscape of the school and the beliefs and attitudes of staff and students which produce both coloniality and cracks in the edifice of coloniality A critical translanguaging lens is applied to analyse multilingual and multimodal aspects of students science meaning making in a traditional classroom and a study group intervention Finally the book suggests implications for decolonial pedagogical translanguaging in Southern multilingual classrooms

Institutions of World Literature Stefan Helgesson, Pieter Vermeulen, 2015-06-19 This volume engages critically with the recent and ongoing consolidation of world literature as a paradigm of study On the basis of an extended active and ultimately more literary sense of what it means to institute world literature it views processes of institutionalization not as limitations but as challenges to understand how literature may simultaneously function as an enabling and exclusionary world of its own It starts from the observation that literature is never simply a given but is always performatively and materially instituted by translators publishers academics and academics critics and readers as well as authors themselves This volume therefore substantiates refines as well as interrogates current approaches to world literature such as those developed by David Damrosch Pascale Casanova and Emily Apter Sections focus on the poetics of writers themselves market dynamics postcolonial negotiations of discrete archives of literature and translation engaging a range of related disciplines The chapters contribute to a fresh understanding of how singular literary works become inserted in transnational systems and conversely how transnational and institutional dimensions of literature are inflected in literary works Focusing its methodological and theoretical inquiries on a broad archive of texts spanning the triangle Europe Latin America Africa the volume unsettles North America as the self evident vantage of recent world literature debates Because of the volume s focus on dialogues between world literature and fields such as postcolonial studies translation studies book history and transnational studies it will be of interest to scholars and
