The Life We Claim Rev. James C. Howell, 2011-07-01 Using the Apostles Creed as the primary text this book explores what we believe as Christians and how those beliefs are relevant today The author's goal is to help pastors educate and transform members of their congregations He examines the Creed phrase by phrase in brief sections suitable for congregational study or for emailing to the congregation For each phrase in the Creed a deeper reflection provides material for preaching a 13 sermon series or for further congregational study A detailed appendix includes recommendations of hymns and songs related to each phrase in the Creed the suggestions are keyed to several hymnals and songbooks [Liturgy on the Edge](#) Samuel Wells, 2018-04-30 This practical companion to creating pastoral liturgies arises from the vibrant ministry of St Martin in the Fields and is designed to aid local ministry teams in devising forms of worship outside and beyond the scope of authorised church liturgy yet in sympathy with its purposes and structures It includes outline liturgies for regular pastoral services such as an informal Eucharist worship for small groups or for a church away day a dementia friendly service a healing service interfaith ceremonies acute pastoral needs such as services for communities affected by local tragedy those experiencing loss through violence outreach services in the open air or welcoming people into sacred space special services though the year for Homelessness Sunday Prisoners Week Holy Week Harvest Remembrance a community carol service and more Each section is introduced with a reflection on theory and practice and each item has a commentary on theological liturgical and pastoral choices made with the aim of enabling practitioners to adapt and create liturgies for their own contexts *Sound Advice* Jean Ashworth Bartle, 2003-03-06 Sound Advice is a valuable resource for college students beginning teachers and experienced conductors of children's choirs It covers the vast array of skills needed by today's conductor and will benefit all choir directors who want their choirs to reach a higher level of artistry This book will be useful on many levels for the college student studying the child voice and elementary teaching methods for the teacher beginning to direct choirs in schools synagogues churches and communities for experienced children's choir directors who wish to know more about orchestral repertoire for treble voices conducting an orchestra and preparing a children's choir to sing a major work with a professional orchestra The underlying educational philosophy is sound the author sees development of musicianship through singing as the primary goal of a children's choir program This philosophy differs dramatically from the traditional concept of the conductor as all knowing and the singers as receptacles An outstanding aspect of the book is how the author leads the reader to an understanding of how to teach musicianship Developing literacy in the choral setting is a mysterious amorphous process to many conductors but the author clearly outlines this important process with practical suggestions well documented examples and a clear reading style which will reach readers on many levels The comprehensive repertoire skill building sheets and programs for all types of children's choirs will provide teachers with immediate and highly valuable resources **Choral Music Reviews Index: 1986-1988** Avery T.
