Snakes slither and make me shiver.

They squeeze too tight,

have a dangerous bite,

and sleep in winter, day ... and night.

If there's one thing I would NEVER do

it's keep a snake as a pet—would you?

Snakes aren't cosy like a kitty,

curled and furry-purry pretty.

Writing about Literature - Second Edition W.F. Garrett-Petts,2013-06-13 Writing about Literature introduces students to critical reading and writing through a thorough and engaging discussion of the field but also through exercises interviews exemplary student and scholarly essays and visual material It offers students an insider s guide to the language issues approaches styles assumptions and traditions that inform the writing of successful critical essays and aims to make student writers a part of the world of professional literary criticism Much of the discussion is structured around ways to analyze and respond to a single

work Stephen Crane's story *The Bride Comes to Yellow Sky*. This second edition is updated throughout and includes a new chapter on Reading and Writing About Poetry; the chapter uses Robert Kroetsch's poem *This Part of the Country* as the unit of analysis and includes an interview with the poet about his process. *The Shapes of Early English Poetry* Eric Weiskott, Irina Dumitrescu, 2019-04-01 This volume contributes to the study of early English poetics. In these essays several related approaches and fields of study radiate outward from poetics including stylistics, literary history, word studies, gender studies, metrics, and textual criticism. By combining and redirecting these traditional scholarly methods as well as exploring newer ones such as object-oriented ontology and sound studies, these essays demonstrate how poetry responds to its intellectual, literary, and material contexts. The contributors propose to connect the small syllables, words, and phrases to the large histories, emotions, faiths, secrets. In doing so, they attempt to work magic on the texts; they consider turning an ordinary word into something strange and new or demonstrating texture, difference, and horizontality where previous eyes had perceived only smoothness, sameness, and verticality.
