Shoplifting Kerry Segrave, 2012-10-27 Shoplifting is a practice that has been engaged in for centuries but it was only after the Civil War that the prevalence of shoplifting and societal awareness of it became significant In the 1860s the typical shoplifter was from the lower classes by 1900 it was an upper class woman who shoplifted from a huge department store because she was a kleptomaniac and in the 1960s it was teenagers stealing for kicks Shoplifting A Social History looks at the activity of shoplifting for the last 140 years the types of people singled out as the principal offenders retailers ambivalent responses to the activity selective prosecution the utilization of high tech antitheft devices and suing shoplifters to recover costs Also examined are media accounts which have often used exaggerated numbers when discussing the activity and the effect of private justice on the offense Discrepancies in treatment of lower class women versus respectable women shoplifters will be of interest to women s studies scholars *The Urge to Splurge* Laura Byrne Paquet, 2003-10-31 Tracing the cultural evolution of shopping from outdoor bazaars to suburban malls this brazen look at the history and psychology of one of

humankind's oldest pursuits considers the variety of reasons and excuses that drive the impulse to buy. An opulent collection of shopping places are described including ancient markets, covered arcades of 18th century France, galleries of 19th century Italy, and megamalls of 1950s America. Examples from literature and other sources explore the historically conflicted attitudes about shopping; it seems that fashionistas have always fought over the trendiest hemlines and hats. The development of buying options is detailed from mail order catalogs and Internet stores to retail districts and massive supermarkets.
