Along This Way The Autobiography Of James Weldon Johnson:

Along this Way James Weldon Johnson, 1954 Along this Way James Weldon Johnson, 1969 Passing and the Fictions of Identity Elaine K. Ginsberg, 1996-04-29

Passing refers to the process whereby a person of one race gender nationality or sexual orientation adopts the guise of another Historically this has often involved black slaves passing as white in order to gain their freedom More generally it has served as a way for women and people of color to access male or white privilege In their examination of this practice of crossing boundaries the contributors to this volume offer a unique perspective for studying the construction and meaning of personal and cultural identities These essays consider a wide range of texts and moments from colonial times to the present that raise significant questions about the political motivations inherent in the origins and maintenance of identity categories and boundaries Through discussions of such literary works as *Running a Thousand Miles for Freedom* *The Autobiography of an Ex Coloured Man* *Uncle Tom's Cabin* *The Hidden Hand* *Black Like Me* and *Giovanni's Room* the authors examine issues of power and privilege and ways in which passing might challenge the often rigid structures of identity politics Their interrogation of the semiotics of behavior dress language and the body itself contributes significantly to an understanding of national racial gender and sexual identity in American literature and culture Contextualizing and building on the theoretical work of such scholars as Judith Butler Diana Fuss Marjorie Garber and Henry Louis Gates Jr *Passing and the Fictions of Identity* will be of value to students and scholars working in the areas of race gender and identity theory as well as U S history and literature Contributors Martha Cutter Katharine Nicholson Ings Samira Kawash Adrian Piper Valerie Rohy Marion Rust Julia Stern Gayle Wald Ellen M Weinauer Elizabeth Young **James Weldon Johnson's Modern Soundscapes** Noelle Morrisette, 2013-05-01

James Weldon Johnson's *Modern Soundscapes* provides an evocative and meticulously researched study of one of the best known and yet least understood authors of the New Negro Renaissance era Johnson familiar to many as an early civil rights leader active in the National Association for the Advancement of Colored People and an intentionally controversial writer on the subject of the significance of race in America was one of the most prolific wide ranging and yet elusive authors of twentieth century African American literature Johnson realized early in his writing career that he could draw attention to the struggles of African Americans by using unconventional literary methods such as the incorporation of sound into his texts In this groundbreaking work literary critic Noelle Morrisette examines how his literary representation of the extremes of sonic experience functioning as either cultural violence or creative force draws attention to the mutual contingencies and the interdependence of American and African American cultures Moreover Morrisette argues Johnson represented these American sounds as a source of multiplicity and diversity often developing a framework for the interracial transfer of sound The lyricist and civil rights leader used sound as a formal aesthetic practice in and between his works presenting it as an unbounded cultural practice that is as much an interracial as it is a racially distinct cultural history Drawing on archival materials such as early manuscript notes

and drafts of Johnson's unpublished and published work Morrisette explores the author's complex aesthetic of sound based on black expressive culture and cosmopolitan interracial experiences This aesthetic evolved over the course of his writing life beginning with his early Broadway musical comedy smash hits and the composition of *Autobiography of an Ex-Colored Man* 1912 and developing through his real autobiography *Along This Way* 1933 The result is an innovative new interpretation of the works of one of the early twentieth century's most important and controversial writers and civil rights leaders

The House I Live In Robert J. Norrell, 2005-02-01 In *The House I Live*

In award winning historian Robert J Norrell offers a truly masterful chronicle of American race relations over the last one hundred and fifty years This scrupulously fair and insightful narrative the most ambitious and wide ranging history of its kind sheds new light on the ideologies from white supremacy to black nationalism that have shaped race relations since the Civil War Norrell argues that it is these ideologies more than politics or economics that have sculpted the landscape of race in America Beginning with Reconstruction he shows how the democratic values of liberty and equality were infused with new meaning by Abraham Lincoln only to become meaningless for generations of African Americans as the white supremacy movement took shape The heart of the book paints a vivid portrait of the long often dangerous struggle of the Civil Rights movement to overcome decades of accepted inequality Norrell offers fresh appraisals of key Civil Rights figures and dissects the ideas of racists He offers striking new insights into black white history observing for instance that the Civil Rights movement really began as early as the 1930s and that contrary to much recent writing the Cold War was a setback rather than a boost to the quest for racial justice He also breaks new ground on the role of popular culture and mass media in first promoting but later helping defeat notions of white supremacy Though the struggle for equality is far from over Norrell writes that today we are closer than ever to fulfilling the promise of our democratic values *The House I Live In* gives readers the first full understanding of how far we have come

A Class of Their Own Adam Fairclough,2009-06-30 In this major undertaking civil rights historian Adam Fairclough chronicles the odyssey of black teachers in the South from emancipation in 1865 to integration one hundred years later *A Class of Their Own* is indispensable for understanding how blacks and whites interacted after the abolition of slavery and how black communities coped with the challenges of freedom and oppression

A History of Prejudice Gyanendra Pandey,2013-03-25 This is a book about prejudice and democracy and the prejudice of democracy In comparing the historical struggles of two geographically disparate populations Indian Dalits once known as Untouchables and African Americans Gyanendra Pandey the leading subaltern historian examines the multiple dimensions of prejudice in two of the world s leading democracies The juxtaposition of two very different locations and histories and within each of them of varying public and private narratives of struggle allows for an uncommon analysis of the limits of citizenship in modern societies and states Pandey with his characteristic delicacy probes the histories of his protagonists to uncover a shadowy world where intolerance and discrimination are part of both public and private lives This unusual and sobering book is revelatory in its exploration of the contradictory history of promise and denial that is common to the official narratives of nations such as India and the United States and the ideologies of many opposition movements

The Autobiography of an Ex-colored Man James Weldon Johnson,1912 *The Autobiography of an Ex Colored Man* 1912 1927 by James Weldon Johnson is the fictional account of a young biracial man referred to only as the Ex Colored Man living in post Reconstruction era America in the late nineteenth and early twentieth centuries He lives through a variety of experiences including witnessing a lynching that convince him to pass as white to secure his safety and advancement but he

feels as if he has given up his dream of glorifying the black race by composing ragtime music Johnson originally published *The Autobiography of an Ex Colored Man* anonymously in 1912 via the small Boston publisher Sherman French Company He decided to publish it anonymously because he was uncertain how the potentially controversial book would affect his diplomatic career He wrote openly about issues of race and discrimination that were not common then in literature The book's initial public reception was poor It was republished in 1927 with some minor wording changes by Alfred A Knopf an influential firm that published many Harlem Renaissance writers and Johnson was credited as the author Despite the title the book is a novel It is drawn from the lives of people Johnson knew and from events in his life Johnson's text is an example of a roman clef The novel begins with a frame tale in which the unnamed narrator describes the narrative that follows as the great secret of my life The narrator notes that he is taking a substantial risk by composing the narrative but that it is one he feels compelled to record regardless The narrator also chooses to withhold the name of the small Georgia town where his narrative begins as there are still living residents of the town who might be able to connect him to the narrative Throughout the novel the adult narrator from the frame interjects into the text to offer reflective commentary into the events of the narrative Born shortly after the Civil War in a small Georgia town the narrator's African American mother protected him as a child and teenager The narrator's father a wealthy white member of the Southern aristocracy is absent throughout the narrator's childhood but nevertheless continues to provide financial support for the narrator and his mother Because of that financial support she had the means to raise her son in an environment more middle class than many blacks could enjoy at the time The narrator describes learning to love music at a young age as well as attending an integrated school It is through his attendance at this school that the narrator first realizes he is African American and thus subject to ridicule and mistreatment for his racial heritage This discovery occurs when he is publicly corrected by his teacher and the headmaster when he stands when the white scholars schoolchildren are asked to stand Returning from school the distraught narrator confronts his mother asking her if he is a nigger His mother reassures him however noting that while she is not white your father is one of the greatest men in the country the best blood of the South is in you The narrator notes that this event became a racial awakening and loss of innocence that caused him to suddenly begin searching for and finding faults in himself and his mother setting the stage for his eventual decision though far in the future to pass as a white man
