Association for Computing Machinery,1978 *Readings in Object-Oriented Database Systems* Stanley B. Zdonik,David
Maier,1990 This comprehensive collection is a survey of research in object oriented databases offering a substantive
overview of the field section introductions and over 40 research papers presented in their original scope and detail The
balanced selection of articles presents a confluence of ideas from both the language and database research communities that
have contributed to the object oriented paradigm The editors develop a general definition and model for object oriented
databases and relate significant research efforts to this framework Further the collection explores the fundamental notions
behind object oriented databases semantic data models implementation of object oriented systems transaction processing
interfaces and related approaches Research and theory are balanced by applications to CAD systems programming
