to which they can relate to it at that specific moment This is the factor that dictates how fast one improves over a period of time Here is an analogy If I were to pick two different gold 3 players for example one may assume that they are at a similar spot on the tree of game knowledge They are both gold 3 so they must be right No their spot on that tree is unique as is the combination of things they know and don't know it's just that the net result happens to be the same Depending on which leafs and branches of the tree they have if they were both to be traditionally taught the same thing in the same exact way the result wouldn't be optimal for both The key to overcoming those limitations is through teaching the game in the most relatable way by utilizing the functions of the left and right brain hemispheres SIMULTANEOUSLY through associations and other learning techniques What most people don't realize is that their progress is not only limited by what they don't know but also the unconscious habits and pathways they've created and CONTINUE to create each time they play Improving at the fastest rate is achieved by also following a daily practice routine that revolves around repeated behaviors that create the right habits while unlearning the wrong ones Basically you transform as a player and it takes about a month So here is my attempt to change things for the better and have a positive impact on the community I wrote this book specifically for new and old players that struggle to reach Diamond It's updated and relevant to the current Season 6 Everyone that learns from it should be able to reach Diamond within 30 days of practicing no matter what their starting point is I stand behind my statement that ANY low elo player has the potential to get to Diamond in a short time when taught correctly As far as the time commitment required playing 2-4 games a day and dedicating about an hour for the method described in Chapter 9 is plenty The method is designed specifically for people with a job school other real life activities who cannot dedicate 10 hours a day to League
