eTrust Karen S. Cook, Chris Snijders, Vincent Buskens, Coye Cheshire, 2009-10-22 There is one thing that moves online consumers to click add to cart that allows sellers to accept certain forms of online payment and that makes online product reviews meaningful trust Without trust online interactions can't advance But how is trust among strangers established on the Internet What role does reputation play in the formation of online trust In *eTrust* editors Karen Cook Chris Snijders Vincent Buskens and Coye Cheshire explore the unmapped territory where trust reputation and online relationships intersect with major implications for online commerce and social networking *eTrust* uses experimental studies and field research to examine how trust in anonymous online exchanges can create or diminish cooperation between people The first part of the volume looks at how feedback affects online auctions using trust experiments Gary Bolton and Axel Ockenfels find that the availability of feedback leads to more trust among one time buyers while Davide Barrera and Vincent Buskens demonstrate that in investment transactions the buyer's own experience guides decision making about future transactions with sellers The field studies in Part II of the book examine the degree to which reputation facilitates trust in online exchanges Andreas Diekmann Ben Jann and David Wyder identify a reputation premium in mobile phone auctions which not only drives future transactions between buyers and sellers but also payment modes and starting bids Chris Snijders and Jeroen Weesie shift focus to the market for online programmers where tough competition among programmers allows buyers to shop around The book's third section reveals how the quality and quantity of available information influences actual marketplace participants Sonja Utz finds that even when unforeseen accidents hinder transactions lost packages computer crashes the seller is still less likely to overcome repercussions from the negative feedback of dissatisfied buyers So much of our lives are becoming enmeshed with the Internet where ordinary social cues and reputational networks that support trust in the real world simply don't apply *eTrust* breaks new ground by articulating the conditions under which trust can evolve and grow online providing both theoretical and practical insights for anyone interested in how online relationships influence our decisions A Volume in the Russell Sage Foundation Series on Trust *Accomplice* Gene Ligotti, 2013-10-04 *Accomplice* is another of Ligotti's long line of suspense filled novels In this mystery the author challenges the reader to discover which of several men is the true serial killer Ligotti offers dead ends and red herrings as well as real and false clues When a serial killer is almost caught by the police he wonders where he went wrong in his planning Claiming to be a novice writer the killer writes to a best selling mystery author whose killer always escapes capture requesting assistance in writing his book The author advises the killer and soon realizes that the writer is now the killer's accomplice Who is the serial killer One of the author's friends or a stranger At the peak of suspense the author becomes the killer's prey This is another of Ligotti's can't put it down page turners Suspense and excitement prevail as the characters you will learn to care for are constantly put in danger all leading to a spine chilling ending For readers of mysteries and suspense thrillers this is a must read Cover art by Tom Kolendra
