Althusser And Law:

Althusser and Law Laurent de Sutter, 2013-03-05 Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has, for practical and political as well as theoretical reasons, made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called Ideological State Apparatuses, law is at the forefront of political struggles from the destruction of Labour Law to the exploitation of Patent Law, from the privatisation of Public Law to the ongoing hegemony of Commercial Law, and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important and more contemporary than ever. Indeed, the contributors to *Althusser and Law* argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Althusser and Law Laurent De Sutter, 2013 Althusser, from the privatisation of Public Law to the ongoing hegemony of Commercial Law, and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important and more contemporary than ever. Indeed, the contributors to *Althusser and Law* argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Law's Community Roger Cotterrell, 1995 *Law's Community* offers a distinctive analysis of law, identifying political and moral problems that are fundamental to contemporary legal theory. It portrays contemporary law as institutionalized doctrine, emphasizing ways in which legal modes of thought influence wider currents of understanding and belief in contemporary Western societies. Exploring relationships between law and sociology as contrasting and competing fields of knowledge, *Law's Community* develops ideas from social theory to identify key problems for legal development, in particular those of restoring moral authority to law and of elaborating a concept of community that can guide legal regulation. The analysis leads to radical conclusions among them that law's functions need reconsideration at the most general level, that a unitary state legal system as portrayed in traditional kinds of legal theory may no longer be adequate in complex contemporary societies, and that law should be reconceptualized as a diverse but coordinated plurality of systems, sites, and forms of regulation.

Legal Form and the End of Law Cosmin Cărcel, Gian-Giacomo Fusco, Przemysław Tacik, 2024-10-14 Following the 100th anniversary of Pashukanis' General Theory of Law and Marxism 1924, this volume aims to breathe new life into the main category of Pashukanian legacy: the concept of legal form. This book offers new, deeper and more general ways in which the concept of legal form can be used to push forward Marxist, post-Marxist, or hauntingly Marxist legal theory. Accordingly, this book does not pledge allegiance to reconstructing and reconsidering the official interpretative legacy of the legal form. Instead, it

mobilises the revolutionary conceptual potentialities that this term contains When investigated thoroughly and in many dimensions the legal form becomes a privileged vantage point not only into the greatest law related riddles of Marxism such as the relation between economy and the state or withering away of statal apparatuses but the whole of modernity as the epoch determined by if not overlapping with capitalism This book aims to think with the legal form rather than explain this concept In so doing it offers a panoply of theoretical perspectives that address legal subjectivity abstraction autonomy of the law and last but not least withering away of the law This contemporary interrogation of the relevance of the concept of legal form will be of considerable interest to scholars and students of legal and political theory On Law and Ideology Paul H. Hirst, 1979-07-04 **Law/Society** John Sutton, 2001 A core text for the Law and Society or Sociology of Law course offered in Sociology Criminal Justice Political Science and Schools of Law John Sutton offers an explicitly analytical perspective to the subject how does law change What makes law more or less effective in solving social problems What do lawyers do Chapter 1 contrasts normative and sociological perspectives on law and presents a brief primer on the logic of research and inference as it is applied to law related issues Theories of legal change are discussed within a common conceptual framework that highlights the explanatory strengths and weaknesses of different arguments Discussions of law in action are explicitly comparative applying a consistent model to explain the variable outcomes of civil rights legislation Many concrete in depth examples throughout the chapters **Hague Yearbook of International Law / Annuaire de La Haye de droit international, Vol. 35 (2022)** Jure Vidmar, 2024-03-18 The aim of the Hague Yearbook of International Law is to offer a platform for review of new developments in the field of international law In addition it devotes attention to developments in the international law institutions based in the international City of Peace and Justice The Hague This Special Issue of Yearbook stems from a conference organised by the Maastricht University Study Group for Critical Approaches to International Law in April 2022 The conference entitled Deconstructing International Law invited participants to reflect on and dismantle some of the foundational ideas of international law *Harold Pinter and the Language of Cultural Power* Marc Silverstein, 1993 For all their attempts to own language Pinter s characters discover that words constitute alienable property that language forms de forms and re forms subjectivity that as a system preceding the individual language carries embedded within it the values desires and imperatives of the Other the dominant cultural order By introducing questions of subject position and ideology into his discussion author Marc Silverstein shows how the plays exhibit a political dimension largely ignored by the bulk of Pinter criticism which attempts to classify his oeuvre as a form of absurdist drama It is Silverstein s contention that Pinter does not concern himself with the fate of the individual lost in an incomprehensible and meaningless universe the absurdist Pinter but instead explores the vicissitudes of living within ideological discursive and social structures that always exceed the subject *Research Handbook on Law and Marxism* O'Connell, Paul, Özsü, Umut, 2021-12-14 This Research Handbook offers unparalleled insights into the large scale resurgence of interest in Marx

and Marxism in recent years with contributions devoted specifically to Marxist critiques of law rights and the state *On Law and Ideology* Paul Q. Hirst,1979 **Framing the Subjects and Objects of Contemporary EU Law** Samo Bardutzky,Elaine Fahey,2017-06-30 This timely book invites the reader to explore the lexicon of subjects and objects of EU law as a platform from which several dilemmas and omissions of EU law can be researched It includes a number of case studies from different fields of law that deploy this lexicon structuring the contributions around three principal elements of EU law its transformations crises and external internal dynamics **Ideology and Private Law: Polish Experiences in the Long 20th Century** Anna Machnikowska,Michał Karol Gałędek,Rafał Mańko,2025-08-25 This book highlights the ideological aspects influencing the modern shape of private law in Central and Eastern Europe CEE examining Poland as a representative example given the shared historical trajectory of the 20th century across this region In the historico legal literature currently in international circulation there is a dearth of studies on the development of modern positive law in CEE countries This volume therefore aims to bridge this gap and deliver a more profound reflection on the long term social economic and political role of private law in this region *Althusser and His Contemporaries* Warren Montag,2013-05-01 Althusser and His Contemporaries alters and expands understanding of Louis Althusser and French philosophy of the 1960s and 1970s Thousands of pages of previously unpublished work from different periods of Althusser s career have been made available in French since his death in 1990 Based on meticulous study of the philosopher s posthumous publications as well as his unpublished manuscripts lecture notes letters and marginalia Warren Montag provides a thoroughgoing reevaluation of Althusser s philosophical project Montag shows that the theorist was intensely engaged with the work of his contemporaries particularly Foucault Derrida Deleuze and Lacan Examining Althusser s philosophy as a series of encounters with his peers thought Montag contends that Althusser s major philosophical confrontations revolved around three themes structure subject and beginnings and endings Reading Althusser reading his contemporaries Montag sheds new light on structuralism poststructuralism and the extraordinary moment of French thought in the 1960s and 1970s *Contingency in International Law* Ingo Venzke,Kevin Jon Heller,2021 This volume brings together a group of renowned experts to discuss the question of whether international law could have developed differently Contributors explore contingency in theory and practice across a range of fields including those related to migrants and refugees the sea and natural resources and human rights Contemporary Chinese Marxism Chengbing Wang,2023-08-22 This book provides a comprehensive and in depth survey of the foundational research orientations of contemporary Chinese Marxism The chapters in this book not only attach importance to the exploration of classic Marxist texts but also explore the challenges posed on classic Marxist texts by modernity and in doing so highlight the relationship between Marxism and the traditional Chinese culture As a school of thought Marxism has exerted tremendous influence on fields of humanities and social sciences over the course of its introduction dissemination and development Through this volume well established Chinese scholars from Mainland China

also discuss contemporary Chinese Marxism in an interdisciplinary context Further this volume facilitates dialogues exchanges and collisions of ideas between researchers of contemporary Chinese Marxism on one side and the researchers of Western Marxism on the other This book will be a great resource for academics researchers and advanced students of Marxism philosophy and sociology The chapters in this book were originally published in the journal Educational Philosophy and Theory

The Process of International Legal Reproduction Rose Parfitt, 2019-01-17 Radical international legal history of the expansionary project of statehood and its role in generating profound distributional inequalities

State Violence and Legal Accountability Ceylan Begüm Yıldız, 2025-02-18 This book pursues a critical perspective on the phenomenon of state violence and its legal unaccountability Focusing on the role of myths assumptions and ghosts that surround the meaning of the state and performance of state violence this book details a fresh perspective on that violence and its legal unaccountability It asks How does our understanding of the state reflect on the political demands and legal processes of accountability To pursue this question the book traces the political and legal aftermath of the police killing of a 14 year old boy Berkin Elvan during the nationwide Gezi protests of the summer of 2013 in Turkey Countering imaginaries of the state clash between the state officer s attempt to attribute personal responsibility to Elvan for his own death and public demands for state accountability Meanwhile the prolonged legal process ensures that subjects who seek accountability find themselves in a long and exhausting legal battle which dominates their lives and transforms their subjectivity As the Elvan family continues to wait for accountability and justice this book suggests that waiting and suspense are key elements of legal performance in trials concerning state violence As such and unlike the usual reading of legal violence which focuses on judgement the book explores how this violence and its implications for an understanding of justice and accountability is bound to the very act of waiting This critical interdisciplinary study of state violence and its legal handling will appeal to scholars and students from a wider range of disciplines including law criminology politics sociology and political and legal philosophy

The Production of Subjectivity: Marx and Philosophy Jason Read, 2022-04-11 Louis Althusser argued that Marx initiated a transformation of philosophy a new way of doing philosophy This book follows that provocation to examine the way in which central Marxist concepts and problems from primitive accumulation to real abstraction animate and inform philosophers from Theodor Adorno to Paolo Virno While also examining the way in which reading Marx casts new light on such philosophers as Spinoza At the centre of this transformation is the production of subjectivity the manner in which relations of production produces ways of thinking and living

Politics and Philosophy Mikko Lahtinen, 2009 Louis Althusser s interpretation of Niccol Machiavelli has never really been studied in any detail as an analysis of political action and intervention The same is also true for Althusser s notion of aleatory materialism Instead these have conventionally been studied from the viewpoint of a philosophical perspective in which politics is excluded The objective of the present book thus runs against many of the prevailing views on Althusser Here the emphasis is placed on Althusser s advancement of a theory

of materialist politics The main argument put forward is that for Althusser it was essential to reflect on how the conjunctural understanding of history and reality could offer a theoretical starting point for a subversive political strategy **Literature and the Law of Nations, 1580-1680** Christopher Norton Warren, 2015 Literature and the Law of Nations 1580 1680 is a literary history of international law which seeks to revise the ways scholars understand early modern English literature in relation to the history of international law
