

EMERGENCY FIRST AID

3 KEY THINGS TO REMEMBER WHEN FACED WITH AN EMERGENCY SITUATION

1. Immediately call 911 for medical assistance.
2. Quickly stabilize the injury using calm and correct first aid.
3. Never move the patient unless it simply cannot be avoided. Do so carefully.

CHEMICAL OVEREXPOSURE

If the victim has been splashed by a poisonous substance, or has inhaled or ingested a chemical:

SKIN CONTACT: Flush with water for 15 minutes.

INHALATION: Move the victim to fresh air and give artificial respiration or CPR if necessary. Seek medical attention immediately.

INGESTION: Follow MSDS instructions and call the local poison control center. Seek medical attention immediately. Never give fluids to an unconscious person.

There can be EXTREMES TO FOLLOW PROCEDURES:

1. Contact victim and the chemical's name, and get medical advice.
2. Before any emergency check the label instructions on a MSDS.
3. Do "not" eat or drink anything while administering first aid.
4. Find the phone number of the poison control center at each plant.

ELECTRICAL SHOCK

Do not touch a person who may be in contact with a live electrical current.

Turn off the power at the main switch or fuse.

If you must remove a person from a live wire, be very careful. Don't use anything that is metal, wet, or damp. Push the person with a dry stick or board.

Once victim is free, check for heartbeat and breathing, and give artificial respiration or CPR as necessary.

BURNS

If the victim is on fire, stop the burning by rolling them on the ground. Douse them with water, or smother the flames with a coat, rug, or blanket.

- Cut away any loose clothing, but do not remove any clothing that is stuck on the body.
- First, on second degree burns only, be prepared to cool with cool water. Do not immerse the burned area in the ground. Do not break any blisters.
- Do not use ice, oil, or ointment on the burn.
- After washing first or second degree burn, cover the burned area with a moist, sterile dressing.
- Do not give the victim any orally consumed food.
- First degree burns, and even second, may be treated at home.
- Seek medical attention immediately.

1. Cover exposed burn with a sterile dressing.
2. Do not use ointment, butter, or oil.
3. Do not break blisters.

CHEMICAL IN EYES

FLUSH WITH WATER IMMEDIATELY FOR AT LEAST 15 MINUTES.

Do not attempt to remove an object from the eye. Wait for medical help, and let them remove it!

After the eyes have been rinsed thoroughly, close both eyes, cover with a clean cloth, and seek medical attention immediately.

SEVERE BLEEDING

You must stop the flow until help arrives. A caregiver working alone must stop the bleeding before calling for medical help. Wear protective gloves when possible, and cover any open wound you may have.

CPR

IT'S AS EASY AS
C-A-B

Compressions
Push hard and fast on the center of the victim's chest.

Airway
Tilt the victim's head back and lift the chin to open the airway.

Breathing
Give mouth-to-mouth rescue breaths.

ADMINISTERING CPR

1. Call 911, or ask someone else to do it for you.
2. Shout and tap "or gently shake" the victim's shoulder to get the victim to respond. If there is no response, roll the person onto their back.
3. Begin chest compressions by placing the heel of your hands in the middle of the victim's chest. Place your other hand on top of the first, interlocking your fingers.
4. Push down hard enough to compress the chest at least 2 inches in adults and children, and 1.5 inches in infants. One hundred compressions per minute (or even a little faster) is the optimal speed.
5. If you have been trained in CPR, you can now open the victim's airway by tilting the head and lifting the chin.
6. Push closed the victim's nose, take a normal breath and cover the mouth of the victim with yours to create an air-tight seal. Give two 1-second breaths so you watch for the chest to rise.
7. Continue with the cycle of compressions and breaths (30 compressions and 2 breaths) until assistance arrives.

BROKEN BONES

Do not move a person who may have broken bones unless absolutely necessary. Tell the victim not to move. Neck or back injuries could cause paralysis or death.

HEIMLICH MANEUVER

Position yourself behind the victim, and wrap your arms around their waist. Place a fist (with thumb side up) below the ribs but above the navel. With your other hand, grab your fist and use sharp, inward-upward thrusts to dislodge the object stuck in the airway. Repeat as needed.

TRAUMATIC SHOCK

A seriously injured person may go into shock, and shock can kill! ASSURE THAT YOUR VICTIM WILL GO INTO SHOCK. After that all has been given and help is on the way, treat for shock:

1. Lay the victim down flat, and lightly cover them.
2. Place the feet above the level of the head.
3. Check after the victim is still breathing.
4. Do not give the victim anything to drink.

EPILEPTIC SEIZURE

Do not attempt to control convulsive movements. Move away furniture or any nearby objects that might cause injury. Do not put anything into the victim's mouth. Keep people away from the victim. After the seizure ends, the victim may still be confused and disoriented. Make sure they have recovered fully, and obtain further medical aid if necessary.

ANAPHYLACTIC SHOCK

Anaphylactic shock can be deadly and is the result of a severe allergic reaction to a sting, insect bite, or certain types of food. Watch for symptoms that include breaking out in hives, swelling of the throat, or overall weakness. Call for medical assistance immediately. See if the victim has their own medicine. Artificial respiration may be required.

HEAT STROKE

Heat stroke is life-threatening. Body temperature soars, and the skin becomes hot, red, and dry. Extreme fatigue can occur. Call an ambulance immediately, then attempt to cool the victim down by dousing them in large quantities of cool water. Wrap the victim's body in cold wet towels, and watch for loss of consciousness.

HEART ATTACK TIME IS CRITICAL

Symptoms of a heart attack include: shortness of breath or difficulty breathing; pain and/or pressure in the center of the chest; jaw and back pain, or pain that radiates down the left arm; cold sweat; nausea; vomiting or light-headedness.

If you experience any one of these symptoms, go immediately to the nearest emergency room, or call 911 and sit or lie down until medical aid arrives.

Automated external defibrillators (AEDs) are life-saving heart devices. Know the location of any AEDs your company may have and who is trained to operate one. Never attempt to use an AED if you have not been trained to do so.

EMERGENCY TELEPHONE NUMBERS

CALL 911

In an EMERGENCY CHEMICAL situation, call CHEMTREC at 1-800-424-9300.

For non-emergency chemical information, call the USOC National Response Center at 1-800-424-8802.

Alliance First Aid Guide Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Alliance First Aid Guide free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Alliance First Aid Guide free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Alliance First Aid Guide free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free.

Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Alliance First Aid Guide. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Alliance First Aid Guide any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Alliance First Aid Guide Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Alliance First Aid Guide is one of the best book in our library for free trial. We provide copy of Alliance First Aid Guide in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Alliance First Aid Guide. Where to download Alliance First Aid Guide online for free? Are you looking for Alliance First Aid Guide PDF? This is definitely going to save you time and cash in something you should think about.
