Almost Paradise Steve Ruedlinger, 2014-03 Enthusiasm and nerves are running high on board the nuclear powered Coast Guard cutter Broadsword as the crew prepares for their maiden voyage Confident that they have prepared and trained for every possible contingency during their deployment they are eager to get underway But a new storm brewing in the Gulf of Mexico is about to sweep these sailors into truly uncharted waters As the winds settle chaos reigns on the command deck Instruments are malfunctioning and the crew struggles to make sense of nonsensical readings The only explanation seems impossible but soon it's one they have no choice but to accept as their new reality They have been transported back to the Mid Cretaceous a voyage of nearly 92 million years into the planet's past It's a time of unrecognizable peril and challenge for the crew where incredible beasts control land sea and air A warm and humid Earth presents a changing landscape of geologic instability super storms and shifting continents Lead by the enigmatic JD Stoner the ragtag crew races to understand their new situation and find a way home Survival is far from guaranteed in an environment rife with danger that none of them is equipped to handle Can a group of twenty first century humans survive long enough to make it back to their own time

K. Patell, 1994. This is the fullest and richest account of the American Renaissance available in any literary history. The narratives in this volume made for a four fold perspective on literature: social, cultural, intellectual and aesthetic. Michael D. Bell describes the social conditions of the literary vocation that shaped the growth of a professional literature in the United States. Eric Sundquist draws upon broad cultural patterns; his account of the writings of exploration, slavery and the frontier is an interweaving of disparate voices, outlooks and traditions. Barbara L. Packer's sources come largely from intellectual history; the theological and philosophical controversies that prepared the way for transcendentalism. Jonathan Arac's categories are formalist; he sees the development of antebellum fiction as a dialectic of prose genres; the emergence of a literary mode out of the clash of national, local and personal forms. Together these four narratives constitute a basic reassessment of American prose writing between 1820 and 1865. It is an achievement that will remain authoritative for our time and that will set new directions for coming decades in American literary scholarship.
