

Helping a Choking Adult

Step

Action

1

If you think someone is choking, ask, "Are you choking?" if he nods yes, tell him you are going to help.

2

Get behind him. Wrap your arms around him so that your hands are in front.

3

Make a fist with 1 hand.

4

Put the thumb side of your fist slightly above his belly button and well below the breastbone.

5

Grasp the fist with your other hand and give quick upward thrusts into his abdomen.

6

Give thrusts until the object is forced out and he can breathe cough, or talk, or until he stops responding.
