I. Where Are We Now?

A. Purpose and Goals and relation to institution

The current mission of the Air Conditioning and Refrigeration Program is to provide career training and continuing professional education leading to a certificate in methods of air condition and refrigeration maintenance and repair. Program courses and curricula are designed to meet current industry standards and prepare students for employment as well as continued career growth and development. The Program trains students in refrigeration repair of small appliances, domestic heating and cooling system and commercial reach-in units. The Program's mission is consistent with the RCCD's mission of providing post-secondary education for pre-professional, career preparation and occupational and technical education that leads to certificate or Associate's Degree. Consistent with the District's vision of student centeredness and excellence, the Air Conditioning Program strives to provide an educational experience that meets industry standards for employment, and that serves the needs of students in course scheduling, learning styles, class offerings and industry expectations.

There have been some significant changes that have impacted the Air Conditioning program since completion of the last program review in 2000.

- The discipline's physical square footage has been reduced by 25% as a result of space reallocation to the Gates High School Program. Lab space in room 103B was cut in half to create an additional classroom for the Gates program, room 110. This left the Air Conditioning program with no lecture rooms, and required that lecture and lab be conducted in the two remaining labs. The loss of space required a corresponding reduction in class size from 30 students to 20 students in each of the labs. For safety considerations, each group of 3-4 lab students, working together on a project, require a minimum space of 7 X 7 ft or 49 square feet.
- There is an ongoing concern that the Program will lose additional space due to space reallocation. As an example, the Theatre discipline is requesting space in
