Student A
I wasn't a very motivated student when I was younger, so I failed my exams in 1999 and had to retake them the following summer. I'd already decided I wanted to take a gap year then go to business school, so this time I completed all the coursework and revised thoroughly. I passed easily. I spent a year abroad as an assistant in a secondary school and then went to business school - I'd already applied and successfully attended an interview before revising my exams.
In my second year as an undergraduate, I spent a semester as an intern at Hewlett Packard, which was very rewarding. In fact, I went straight into a job at HP after I graduated the following June. They encouraged me to do a Master's degree by correspondence - I just have to finish writing a dissertation. I need a break now, but I may take a sabbatical to study for an MBA in a few years' time.
