Student Exploration: Waves

Vocabulary: amplitude, compression, crest, frequency, linear mass density, longitudinal wave, medium, period, power, rarefaction, transverse wave, trough, wave, wavelength, wave speed

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

1. A buoy is anchored to the ocean floor. A large wave approaches the buoy. How will the buoy move as the wave goes by?

A buoy will move down and up as the wave goes by.

2. The two images show side views of ocean waves. How are the two sets of waves different?

A) The first wave is a longitudinal wave and the other one is a transverse wave. Also in the second one the distance is separated more.

Gizmo Warm-up

Ocean swells are an example of **waves**. In the Waves Gizmo, you will observe wave motion on a model of a spring. The hand can move the spring up and down or back and forth.

To begin, check that the **Type of wave** is **Transverse**, **Amplitude** is 20.0 cm, **Frequency** is 0.75 Hz, **Tension** is 3.0 N, and **Density** is 1.0 kg/m. (Note: In this Gizmo, "density" refers to the **linear mass density**, or mass per unit length. It is measured in units of kilograms per meter.)

1. Click **Play** (▶). How would you describe the motion of a **transverse wave**?

A) The wave moves left to right while the hand moves up and down.

Click **Pause** (⏏). Notice the **crests** (high points) and **troughs** (low points) of the wave.

2. Click **Reset** (↺). Choose the **Longitudinal** wave and increase the **Amplitude** to 20.0 cm.

Click **Play**. How would you describe the motion of a **longitudinal wave**?

upon students engagement with learning activities in formal learning settings The findings and model are worthy of further testing and development as part of the wider agenda of student engagement wellbeing and positive psychology prevalent in educational research education psychology and the philosophy of social motivation

Reshaping Graduate Education Through Innovation and Experiential Learning Jenkins, Toby S.,2020-10-16 Discussions on the importance and impact of pedagogical practice on students as whole persons are often concentrated on the P 12 or undergraduate learning experience In higher education many institutions do an outstanding job of complicating the undergraduate classroom to include civic engagement community based learning education abroad social action and project based learning But what about the graduate classroom While there are indeed numerous graduate programs that push students to interact with strong meaningful difficult and sometimes harsh facts scholarship and ideologies the instructional methods have largely remained stagnant New methods of constructing deep and meaningful learning in graduate education is essential for the transformation and continued evolution of graduate school instruction *Reshaping Graduate Education Through Innovation and Experiential Learning* is a crucial reference book that offers practice based reflections on efforts to infuse creativity social action engaged learning or other creative interventions into the graduate classroom The book includes personal narratives that are grounded in pedagogical perspectives from graduate school instructors who share their experiences with innovative and transformative teaching practices The goal of the book is to encourage graduate school professors to engage social justice education as something to be experienced and practiced in their courses and not just as a concept to be studied As such the book covers topics such as self directed learning counseling and community mapping It is ideal for graduate level instructors in the field of education and other related social science areas as well as junior faculty as they establish a teaching practice or veteran faculty seeking creative transformation

Focus on Earth Science ,2001 *How College Students Succeed* Nicholas A. Bowman,2023-07-03 Receiving a college education has perhaps never been more important than it is today While its personal societal and overall economic benefits are well documented too many college students fail to complete their postsecondary education As colleges and universities are investing substantial resources into efforts to counter these attrition rates and increase retention they are mostly unaware of the robust literature on student success that is often bounded in disciplinary silos The purpose of this book is to bring together in a single volume the extensive knowledge on college student success It includes seven chapters from authors who each synthesize the literature from their own field of study or perspective Each describes the theories models and concepts they use summarizes the key findings from their research and provides implications for practice policy and or research The disciplinary chapters offer perspectives from higher education public policy behavioral economics social psychology STEM sociology and critical and post structural theory
