Updates of the ACLS Guidelines 2015. A Historical Comparison Patrick Kimuyu, 2017-12-14 Literature Review from the year 2017 in the subject Medicine Hospital Environment Clinical Medicine grade 1 Egerton University language English abstract Over the years the American Heart Association has made outstanding contributions and numerous improvements to cardiopulmonary resuscitation and advanced cardiac life support guidelines It is due to adequate use of resources and continuous research that millions of lives are saved in the United States Such guidelines serve health care providers and other members of the healthcare team as a resource to ensure adequate and timely response to those individuals who experience cardiac or respiratory arrest However according to AHA statistics More than 326 000 people in the US suffer out of hospital cardiac arrests each year Statistics prove that if more people knew CPR more lives could be saved American Heart Association 2016 In other words dissemination of knowledge on the matter has direct outcomes on increasing survival rates Therefore the guidelines and the implementation methods are on continuous review based on new evidence It is important to provide those who suffer cardiac or respiratory arrest with timely services because delays could end up affecting the outcome of those who experience reversible damage Healthcare providers around the world have become informed on the benefits of updated competence and direct patient outcomes and quality of care The American Heart Association has published the new 2015

cardiopulmonary resuscitation guidelines where changes and updates are reflected in an effort to put the best available evidence in practice The purpose of this review is to compare the 2015 AHA updates with historical evidence in an attempt to explicate the implications and limitations of pharmacology in advanced cardiac life support Taylor's Clinical Nursing Skills Pamela Lynn,2018-10-05 Publisher s Note Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality authenticity or access to any online entitlements included with the product Taylor s Clinical Nursing Skills A Nursing Process Approach Fifth Edition Pamela Lynn EdD MSN RN Confidently meet the challenges of person centered nursing practice From basic nursing processes to advanced clinical capabilities Taylor s Clinical Nursing Skills A Nursing Process Approach helps you hone your cognitive technical interpersonal and ethical legal capabilities and master patient interaction clinical reasoning and communication skills essential to safe and effective person centered care Step by step evidence based guidelines walk you through common practices and simplify complex procedures accompanied by key considerations for documentation delegation and other tasks you ll encounter throughout the nursing process from your first day on the job to every stage of your nursing career Step by Step Skills are presented in a concise straightforward and simplified two column format facilitating competent performance of nursing skills Scientific Rationales accompany each nursing action to promote a deeper understanding of the basic principles supporting nursing care Unexpected Situations highlight abnormal outcomes while providing explanations of how to react to provide the best care Evidence for Practice boxes present current best practice guidelines and up to date research relevant to the skills A Nursing Process Framework integrates related nursing responsibilities for each of the five steps Skill Variations provide clear start to finish instructions for variations in equipment or technique Documentation Guidelines guide you through accurate documentation of skills and findings Hand Hygiene icons alert you to this crucial step that prevents the spread of microorganisms Patient Identification icons help you ensure the right patient receives the intervention and prevent errors Delegation Considerations assist you in developing the critical decision making skills needed to transfer responsibility for the performance of an activity to another individual **Lippincott Manual of Nursing Practice** Suresh K.
