Airbus 319 Manual:

Airbus A319/320 Pilot Upgrade Preparation Faraz Sheikh, 2020-05-27 This book is developed using material and pilot training notes including official Airbus FCOM FCTM and the QRH to allow Pilots to study as a refresher or prepare for their command upgrade. It covers failure management ECAM Airbus memory item drills complex and demanding failures technical reviews on systems limitations low visibility procedures RVSM PBN MEL CDL and supplementary information covering cold weather and icing windshears weather and wake turbulence. The memory item drills include Loss of braking Emergency descent Stall recovery Stall warning at lift off Unreliable airspeed GPWS EGPWS warnings and cautions TCAS warnings and Windshears. The complex and demanding failure chapter goes in depth with failures such as Dual Bleed faults Smoke Fumes cases Dual FMGC failure Engine malfunctions of all levels Fuel leak Dual Hydraulic faults Landing gear problems Rejected takeoff and evacuation Upset preventions and much more. Technical revision gives a good study highlight for all the Airbus A320 systems including Air conditioning Ventilation and Pressurisation Electrical Hydraulics Flight Controls and Automation Landing gear Pneumatics etc. The later chapters of the book covers useful topics such as aircraft limitations low visibility procedures RVSM PBN MEL CDL and other supplementary information such as cold weather and icing turbulence and windshears in more detail. The book will no doubt be a great asset to any trainee or existing Airbus Pilot for both revision and training purposes including refresher training.

Aviation and Its Management Arif Sikander, 2019-05-22 Aviation has grown leaps and bounds within the last decade. Aviation courses and training at all levels have shown an exponential increase around the globe. There has been a restricted focus on writing books in this sector of the economy mainly due to the shortage of expertise in this specialist and complex area. This book was written with the purpose of meeting this need of the aviation sector. Due to the diversified nature of aviation knowledge which includes flying engineering airports allied trades for aircraft and airports airline and airport management and operations education etc one text alone will not suffice and do justice to address all these areas. It is envisaged to develop subsequent parts of this book to cover all these knowledge areas. This book is the first installment of any subsequent books and explores issues including airline management and operations airline business models airport systems flight operational procedures aircraft maintenance runway safety management systems and air traffic management. In particular attention will be given to aspects such as analysis of air traffic in a domestic market runway safety management systems critical success factors for multiple MRO service providers key pain points of the industry to be addressed to move into the future new research on hub airports for international flights new business models for airlines and runway safety management systems. This book is useful to aviation managers educators students and professionals interested in any of the
