Searches Vauhini Vara, 2025-04-08 From the author of *The Immortal King*, Rao finalist for the Pulitzer Prize, a personal exploration of how technology companies have both fulfilled and exploited the human desire for understanding and connection. A MOST ANTICIPATED BOOK. *Esquire*, *Foreign Policy*, *Lit Hub*, *Electric Literature*. When it was released to the public in November 2022, ChatGPT awakened the world to a secretive project teaching AI-powered machines to write. Its creators had a sweeping ambition to build machines that could not only communicate but could do all kinds of other activities better than humans ever could. But was this goal actually achievable? And if reached, would it lead to our liberation or our subjugation? Vauhini Vara, an award-winning tech journalist and editor, had long been grappling with these questions. In 2021, she asked a predecessor of ChatGPT to write about her sister's death, resulting in an essay that was both more moving and more disturbing than she could have imagined. It quickly went viral. The experience, revealing both the power and the danger of corporate-owned technologies, forced Vara to interrogate how these technologies have influenced her understanding of herself and the world around her, from discovering online chat rooms as a preteen to using social media as the *Wall Street Journal*'s first Facebook reporter to asking ChatGPT for writing advice while compelling her to add to the trove of human-created material exploited for corporations' financial gain. Interspersed throughout this investigation are her own Google searches, Amazon reviews, and the other raw material of internet life, including the viral AI experiment that started it all. *Searches* illuminates how technological capitalism is both shaping and exploiting human existence while proposing that by harnessing the collective creativity that makes humans unique, we might imagine a freer, more empowered relationship with our machines and ultimately with one another.

Googling God's Will Winn Griffin, 2011 Tired of googling God's Will in all the wrong places. It's a habit that consumes more valuable time and often produces tragedy and frustration. Can you really find something in the case of the will of God which is not lost? The whole concept of searching suggests that something is lost but is it really? What should you do? Stop googling God's Will and spend that precious time living into it. It's doable, and the aim of this book is to dispel some of the theological sacred cows about the will of God and help you learn a new way of thinking and reflecting that can free you up to live into his will. Asking questions is often at the root of learning, but asking the wrong questions takes us on a journey along a path to nowhere. Have you ever asked questions like: Does God have a perfect or permissive will for my life? Can I put out a fleece to discover his will? How does the Spirit interact with me in living into the will of God? The bottom line: well, you will have to read *Googling God's Will* to see what Dr. Winn offers as a possible solution.
