

Getting Started

Default Logger Settings

1 minute sample rate
Wrap when full
Degree F

Quick Start

Setup the logger by installing batteries.

Install DicksonWare™ software version 9.0 or higher. If already using DicksonWare, check the version by choosing "Help/About" from the menu bar. Contact Customer Service if an upgrade is required.

1. Open DicksonWare using the icon on your desktop.

2. Connect cable (supplied with DicksonWare software) to the logger and to a working Serial COM or USB port on your PC.

3. Click **Setup** button in DicksonWare. At the prompt select **USB** or **Serial COM port** and click **Continue**. The Identification tab will open, and all fields should be automatically filled in. This confirms that DicksonWare™ has recognized the logger. Press the **Clear** button to delete all data currently stored on the logger. A Delta symbol Δ on the top left of the display indicates the unit is now logging.

NOTE: Should all fields remain blank, refer to "Logger will not communicate" in the *Troubleshooting* section of the manual.

Display Functions

Button Functions

Save

Note: This feature is only for use with the Dickson provided memory cards or unlocked SD (secure digital) cards. Unauthorized cards may damage the unit.

Pressing this button will download any data stored in the logger to the removable memory card. "Store" will appear on the display momentarily and the counter will start counting down from 100. Do Not remove the memory card until "Store" is no longer displayed and the unit is displaying current readings.

Note: Leaving the memory card installed in the logger

will reduce battery life by 50%. If you notice "Err" on the display, please refer to the *Troubleshooting* section of this manual.

Alarm

Pressing this button will silence the alarm. Holding this button down for about 5 seconds will toggle between "Fahrenheit" and "Celsius". (Alarm parameters can only be set in DicksonWare™. Refer to the DicksonWare software manual.)

MIN/MAX

When pressed, the display will scroll through MIN/MAX readings for each channel.
