*Whistlestop* John Dickerson, 2016-08-02 From Face the Nation moderator and contributing editor for The Atlantic John Dickerson come the stories behind the stories of the most memorable moments in American presidential campaign history The stakes are high The characters full of striving and ego Presidential campaigns are a contest for control of power in the most powerful country on earth The battle of ideas has a clear end with winners and losers and along the way there are sharp turning points primaries debates conventions and scandals that squeeze candidates into emergency action frantic grasping

and heroic gambles As Mike Murphy the political strategist put it Campaigns are like war without bullets Whistlestop tells the human story of nervous gambits hatched in first floor hotel rooms failures of will before the microphone and the cross country crack ups of long planned stratagems At the bar at the end of a campaign day these are the stories reporters rehash for themselves and embellish for newcomers In addition to the familiar tales Whistlestop also remembers the forgotten stories about the bruising and reckless campaigns of the nineteenth century when the combatants believed the consequences included the fate of the republic itself Some of the most modern feeling elements of the American presidential campaign were born before the roads were paved and electric lights lit the convention halls or there were convention halls at all Whistlestop is a ride through the American campaign history with one of its most enthusiastic conductors guiding you through the landmarks along the way

Strosberg,2024-10-21 In this book Benjamin Strosberg explores difficulties and anxieties inherent in studying defining and defending against anti-Semitism by tracing a concurrent difficulty in thinking about Jewishness which has historically served as a limit case for central social categories such as outsider religion race gender and nation Dr Strosberg draws on Zygmunt Bauman s concept of proteophobia the anxious fear of what doesn t fit into clear cut categories to think more carefully about anti-Semitism as response to the complex realities of ambivalence and otherness The book proposes negative psychology as a methodology for studying anti-Semitism and proteophobia rooted in psychoanalysis and Theodor Adorno s Critical Theory Drawing from lived experiences contemporary events and debates in the field this compelling work explores the broad implications of the investigation of anti-Semitism for politics education and psychoanalysis as well as the specific implications for Jewish identity and resistance *Saturday Review* ,1862 *The Literary World* ,1851
