

America And World War I

Michael J. Hogan

America And World War I:

Over Here David M. Kennedy, 2004-10-07 The Great War of 1914-1918 confronted the United States with one of the most wrenching crises in the nation's history. It also left a residue of disruption and disillusion that spawned an even more ruinous conflict scarcely a generation later. *Over Here* is the single most comprehensive discussion of the impact of World War I on American society. This 25th anniversary edition includes a new afterword from Pulitzer Prize winning author David M. Kennedy that explains his reasons for writing the original edition as well as his opinions on the legacy of Wilsonian idealism most recently reflected in President George W. Bush's national security strategy. More than a chronicle of the war years, *Over Here* uses the record of America's experience in the Great War as a prism through which to view early twentieth century American society. The ways in which America mobilized for the war, chose to fight it, and then went about the business of enshrining it in memory all indicate important aspects of enduring American character. An American history classic, *Over Here* reflects on a society's struggle with the pains of war and offers trenchant insights into the birth of modern America.

America and World War I David Woodward, 2013-01-11 *America and World War I*, the first volume in the new Routledge Research Guides to American Military Studies series, provides a concise annotated guide to the vast amount of resources available on the Great War. With over 2,000 entries selected from a wide variety of publications, manuscript collections, databases, and online resources, this volume will be an invaluable research tool for students, scholars, and military history buffs alike. The wide range of topics covered includes war films and literature, to civil-military relations, to women and war. Routledge Research Guides to American Military Studies will include concise, easy-to-use bibliographic volumes on different American military campaigns throughout history, as well as tackling timely subjects such as women in the military and terrorism.

America's Great War Robert H. Zieger, 2001-11-13 Recent bestsellers by Niall Ferguson and John Keegan have created tremendous popular interest in World War I. In *America's Great War*, prominent historian Robert H. Zieger examines the causes, prosecution, and legacy of this bloody conflict from a frequently overlooked perspective: that of American involvement. This is the first book to illuminate both America's dramatic influence on the war and the war's considerable impact upon our nation. Zieger's engaging narrative provides vivid descriptions of the famous battles and diplomatic maneuvering while also chronicling America's rise to prominence within the postwar world. On the domestic front, Zieger details how the war forever altered American politics and society by creating the National Security State, generating powerful new instruments of social control, bringing about innovative labor and social welfare programs, and redefining civil liberties and race relations. *America's Great War* promises to become the definitive history of America and World War I.

The Best War Ever Michael C. C. Adams, 1994 Most valuable to students and general readers who have not given World War II serious study but who are interested in achieving a better understanding of America's experience in what Dwight D. Eisenhower called the Great Crusade. Register of the Kentucky Historical Society [America Between the Wars, 1919-1941](#) David Welky, 2012-01-24 This

collection situates over seventy essential primary documents in their historical context to illustrate the American experience during the interwar era 1919-1941. Introduces a broad range of cultural and historical topics from race and the role of women to trends in literature and the Great Depression. Includes a range of photographs and illustrations. End of chapter questions encourage critical thinking and analysis while a bibliography prepares students for further research. **America in World War I** KidCaps, 2012-12-09. This handbook is going to teach you more about one of the most important periods of human history. It was a time a huge part of the human race was actively working to support this war either fighting in it helping the soldiers or keeping the country running until the soldiers came home. Ask your parents if anyone in your family fought in World War One and try to imagine what it was like for them as we look closer. Are you ready? Then let's begin. KidCaps is an imprint of BookCaps Study Guides with dozens of books published every month there's sure to be something just for you. Visit our website to find out more. **The Oxford Handbook of Asian American History** David Yoo, Eiichiro Azuma, 2016. The Oxford Handbook of Asian American History brings together 27 essays that engage the state of the field with historiographically informed but creative approaches to this diverse and vibrant area. The chapters trace Asian American history from the beginning of the migration flows toward the Pacific Islands and the American continent to Japanese American incarceration and Asian American participation in World War II from the experience of exclusion, violence, and racism to the social and political activism of the late twentieth century. The authors explore many of the key aspects of the Asian American experience including politics, economy, intellectual life, the arts, education, religion, labor, gender, family, urban development, and legal history. *The American Homefront During WWII* C. D. Peterson, 2024-09-30. Captures the transformation of America during WWII highlighting daily life, wartime economy, and the profound patriotism that united the nation. Don't you know there's a war on? Use it up! Wear it out! Make it do or do without! Loose lips sink ships! Any bonds today? Remember Pearl Harbor! Those were the slogans Americans called out to each other on the home front during WWII. They forged their days surrounded by fellow patriots sharing in the greatest endeavor of their lives: winning the war. The American Home Front in WWII presents the striking story of those times starting with little-known events well before Pearl Harbor: the clashes between isolationists and those favoring intervention and America's first peacetime draft. The shock of Pearl Harbor transformed America from a peacetime country to a full wartime economy. Factories produced an airplane every sixty-one minutes. Women and Blacks entered the workforce as never before bringing about earthshaking changes. Americans describe in their own words the rigors of everyday life: rationing, air raid drills, rigging up black curtains, and scrap drives. But Americans found ways to enjoy themselves: movie attendance swelled with films such as *Casablanca* while Broadway brought audiences *Oklahoma!* The music of Glen Miller and the voice of a skinny newcomer named Frank Sinatra had Americans swinging and swooning. The American Home Front in WWII brings this story to life to capture the extraordinary level of patriotism and teamwork on the home front. It truly was a time when there were no strangers. *America in the World*
