Routh, 2013-11-21. This book is dedicated to my wife Marion W. Routh. In her way, she has been informally involved in clinical psychology organizations for as many years as I have. She has also served for many years as the first reader of almost all manuscripts I have written, including the one for this book. I can always depend on her to tell me straight out what she thinks. When she found out I was writing this book, she was afraid that the mass of detailed factual information I was gathering would be dull to read. Therefore, when I actually started writing, I laid aside all notes and just told the story in a way that flowed as freely as possible. I went back later to fill in the documentation and to correct factual errors that had crept in. When she looked over the first draft of the book, her comment was, "It is not as boring as I thought it would be." Her frankness is so dependable that I knew from these words that there was hope, but that I had my work cut out for me in the revision process. By the middle of the second draft, she grudgingly had to admit that she was getting hooked on the book and kept asking where the next chapter was.
