Truebestein, Matthias Daniel Aepli, 2022-08-26 The challenges of affordable housing are manifold However this presents an opportunity to private investors real estate companies and developers With the growing global trend for impact based investments many institutional investors have begun to consider the merits of this asset class This book examines not only the profitability of these assets but also whether these assets rely on government subsidy It discusses why investors have become more interested in this product and which investment criteria influence the financial performance of these assets The authors employed a mixed method approach to collect data at two tiers first through surveys and afterwards through interviews of 8 firms 3 publicly listed companies 3 private equity companies 1 foundation and 1 state bank across Germany

the United Kingdom and the United States Investment criteria are analyzed using inferential statistics specifically the Hierarchical Algorithm Cluster Analysis The financial characteristics of the companies are examined and compared using descriptive statistics and the qualitative interview output is explored using the thematic Latent Coding Analysis Furthermore the book explains how the bond like nature of affordable housing is a profitable impact investment option and how this strategy is particularly worthwhile for institutional investors It also describes that profitability of affordable housing products is not dependent on subsidy Still affordable housing products supported by government incentives in the United Kingdom and United States are most attractive The book illustrates six important investment strategies identified by veterans in this field to have an influence on the financial feasibility of affordable housing products

CBRNE: Challenges in the 21st Century Peter D.E. Biggins, Deeph Chana, 2022-11-21 This book addresses the pertinent issues that will need to be considered by those interested in physical security problems of the future Specifically it examines how changes in the accessibility of technology data hardware software are likely to affect both threat and mitigation considerations for Chemical Biological Radiological and Explosive CBRE scenarios and how social science can inform us of the human aspects of each The trend towards an ever more socio technical society and infrastructures encapsulated by concepts such as smart cities is drawn out as a key motivation for adopting more holistic risk approaches to such security problems than is currently the case
