About Clue Game: The clue is a classic board game for players ages eight and up. The game takes about an hour to play and calls for three to six players to investigate a murder. The winner is the player who through the process of elimination can figure out which three cards are hidden within the secret envelope that hold the answers to Mr. Boddy's murder.

Moving on the squares: The character Miss Scarlet always takes the first turn in Clue. After Miss Scarlet starts the game, go clockwise around the table for turns. A player rolls the die and moves the playing piece on the yellow or white squares. Boards may have different colored squares. The squares are like the hallways of the mansion. Players can move only horizontally or vertically but never diagonally. Moving into rooms: One of the game's goals is to make your piece move into a room so you can make suspect suggestions to gather more clues. You can walk into a room through a doorway as long as the die you roll has the number you need to reach the room. Multiple players can be in the same room. Players can also jump into a room through a secret passage instead of rolling the die. Moving out of rooms: There are three ways a player can move out of a room. You can throw the die and exit through a doorway. You can exit through one of the room's secret passages. Or if you're a suspect, your piece will be automatically transferred to another room where you're thought to have killed Mr. Boddy. Once you move your piece into a room, you can suggest helping eliminate suspect possibilities by guessing the murderer, murder weapon, and murder location.

You are ready to make a final accusation which differs from a suspect suggestion when you've eliminated all the false possibilities and haven't had your ideas disproved. If you believe you've solved the case, end your turn by making an accusation. You can announce that you're making an accusation and stating your final guess of the murderer, the murder weapon, and the murder location cards in the secret envelope. However, if you're wrong, you lose the game and are eliminated from playing. You'll then secretly put back the three cards into the murder envelope without revealing them. If all the players except one make an incorrect accusation, the last player standing wins the game of Clue.
