Finnish Innovations and Technologies in Schools Hannele Niemi,Jari Multisilta,Lasse Lipponen,Marianna Vivitsou,2014-11-27 This book combines several perspectives on the steps the Finnish educational system has taken to provide students with the skills and competences needed for living in today s society and in the future The ecosystem is used as a metaphor for the educational system The Finnish system aims to achieve sustainable education by ensuring that the system is simultaneously interconnected and open to transformations The book describes how a flexible curriculum system is succeeding without the pressures of high stake testing It also illustrates how the ongoing curriculum reform of the basic education is working The book brings together knowledge gained in schools through the cooperation of researchers teachers school principals the public sector and private companies The book presents case studies of technology integration aimed at crossing boundaries in formal and informal learning settings locally and globally The contributors address 21st century needs and requirements through learner driven knowledge creation collaboration networking and digital literacies It opens new scenarios of how to apply digital storytelling and games connecting fun motivation and learning The strong message is that through collaboration and networking we can create an educational ecosystem that supports different learners

Relevant Chemistry Education Ingo Eilks,Avi Hofstein,2015-07-22 This book is aimed at chemistry teachers teacher educators chemistry education researchers and all those who are interested in increasing the relevance of chemistry teaching and learning as well as students perception of it The book consists of 20 chapters Each chapter focuses on a certain issue related to the relevance of chemistry education These chapters are based on a recently suggested model of the relevance of science education encompassing individual societal and vocational relevance its present and future implications as well as its intrinsic and extrinsic aspects Two highly distinguished chemical educators Ingo Eilks and AviHofstein have brought together 40 internationally renowned colleagues from 16 countries to offer an authoritative view of chemistry teaching today Between them the authors in 20 chapters give an exceptional description of the current state of chemical education and signpost the future in both research and in the classroom There is special emphasis on the many attempts to enthuse students with an understanding of the central science chemistry which will be helped by having an appreciation of the role of the science in

today's world Themes which transcend all education such as collaborative work communication skills attitudes inquiry learning and teaching and problem solving are covered in detail and used in the context of teaching modern chemistry The book is divided into four parts which describe the individual the societal the vocational and economic and the non formal dimensions and the editors bring all the disparate leads into a coherent narrative that will be highly satisfying to experienced and new researchers and to teachers with the daunting task of teaching such an intellectually demanding subject Just a brief glance at the index and the references will convince anyone interested in chemical education that this book is well worth studying it is scholarly and readable and has tackled the most important issues in chemical education today and in the foreseeable future Professor David Waddington Emeritus Professor in Chemistry Education University of York United Kingdom

Courage to Be: Organised Gay Youth in England 1967 - 1990 Clifford Williams, 2021-10-28 The London Gay Teenage Group was a unique and ground breaking youth group It emerged in the heady days of the late 1970s and achieved registration as an official youth club catering mainly for gay and lesbian young people at a time when gay male sex was still totally illegal for anyone aged under 21 *Successful Career Development for the Fitness Professional*, 2006

Peace and Resistance in Youth Cultures Siobhan McEvoy-Levy, 2017-12-21 This book offers a rationale for and ways of reading popular culture for peace It argues that we can improve peacebuilding theory and practice through examining popular culture's youth revolutionaries and their outcomes from their digital and plastic renderings to their living embodiments in local struggles for justice The study combines insights from post structural post colonial feminist youth studies and peace and conflict studies theories to analyze the literary themes political uses and cultural impacts of two hit book series Harry Potter and The Hunger Games tracing how these works have been transformed into visible political practices including social justice advocacy and government propaganda in the War on Terror Pop culture production and consumption help maintain global hierarchies of inequality and structural violence but can also connect people across divisions through fandom participation Including chapters on fan activism fan fiction Guantanamo Bay detention center youth as a discursive construct in IR and the merchandizing and tourism opportunities connected with The Hunger Games the book argues that through taking youth oriented pop culture seriously we can better understand the local global and transnational spaces discourses and the relations of power within which meanings and practices of peace are known negotiated encoded and obstructed

A Handbook of Contemporary Group Work Practice Carolyn Knight, Geoffrey L. Greif, 2024 Group work remains a vital intervention for a wide range of clients facing an array of personal social and environmental challenges From groups for individuals with substance abuse problems or for children who have been abused to advocacy groups for parents of children with developmental disabilities and neighborhood associations that seek to improve the quality of life in the local community groups are empowering to members at the individual and societal level *An Amazing Journey* Glynne Gordon-Carter, 2003 How has the Church responded to the challenge to combat institutional racism To what extent are the

issues being addressed by church schools clergy and parishes How are theological colleges and courses responding to the importance of preparing and training ordinands for leadership in multi cultural multi ethnic and multi faith Britain These are some of the questions that have challenged the Church of England in its struggle to understand racism and the way that it is used by institutions maybe unwittingly to disadvantage minority ethnic people The Stephen Lawrence Inquiry Report acted as a catalyst and forced the Church to take a fresh look at itself with respect to its record in combating institutional racism This book gives new insights into the Church of England s response to race issues and presents a fascinating view of the Church at the start of the twenty first century It highlights examples of good practice and demonstrates the progress that has been made wince the publication in 1991 of Seeds of Hope a seminal report of a survey on combating rascism in the Church of England
