Focus on Grammar and Meaning Luciana C. de Oliverira, Mary J. Schleppegrell, 2016-06-28 Focus on Grammar and Meaning explores how to teach grammar effectively to second or foreign language learners aged 5-18. It provides teachers with research insights that will help them to reflect on their classroom practice and enable them to experiment with different ways of teaching grammar. Taking a systemic functional approach, the authors emphasize the importance of linking language and meaning in teaching. Key research studies on grammar instruction are featured; examples from real classroom practice are examined, and activities are provided to help teachers relate the content to their own teaching context. Additional online resources at www.oup.com/elt/teacher/fogm. Luciana C. de Oliveira is Associate Professor of TESOL and Applied Linguistics at Teachers College, Columbia University, New York. Mary J. Governance and Planning of Mega-City Regions Jiang Xu, Anthony Yeh, 2010-09-13 Provides a comparative treatment and examination of how new approaches in governance and planning are reshaping mega-city regions around the world. The contributors highlight how European mega-city regions are evolving and strategic intervention redefined to enable the integration of urban qualities in a multi-level governance environment; how traditional federal countries in North America and Australia see the promise of major policies and development initiatives finally moving ahead to herald a more strategic intervention at national and regional scales; and how transitional economies in China witness the rise of state strategies to control the articulation of scales and to reassert the functional importance of state in a growing diffused power context.

Asian/American Curricular Epistemicide Nicholas D. Hartlep, Daniel P. Scott, 2016-08-18 In this important book, Nicholas Hartlep and Daniel Scott's detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans. As Hartlep and Scott write, Asian Americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality. Over and over again, the media has been telling a single story about Asian Americans to the public for the past fifty years. The consequence of this fabricated story is that it discourages others, even Asian Americans themselves, from believing in the validity of their struggles.
