American Headway 2 Second Edition Workbook 1:

The Social Construction of Age Patricia Andrew, 2012-01-11 This book explores the social construction of age in the context of EFL in Mexico. It is the first book to address the age factor in SLA from a social perspective. Based on research carried out at a public university in Mexico, it investigates how adults of different ages experience learning a new language and how they enact their age identities as language learners. By approaching the topic from a social constructionist perspective and in light of recent work in sociolinguistics and cultural studies, it broadens the current second language acquisition focus on age as a fixed biological or chronological variable to encompass its social dimensions. What emerges is a more complex and nuanced understanding of age as it intersects with language learning in a way that links it fundamentally to other social phenomena such as gender, ethnicity, and social class. *American Headway* Liz Soars, 2010 *Books in Print Supplement*, 2002

American Headway Joan Soars, Liz Soars, 2009-09-03 A complete language learning package for students who are serious about learning English. American Headway combines a comprehensive treatment of grammar, vocabulary, and functional language with up-to-date topics and level-appropriate skills work to deliver real results in the classroom. *American Headway 1 Workbook A* Liz Soars, Joan Soars, 2009-10-03 Spotlight on Testing lessons by Lawrence J. Language Ideologies and L2 Speaker Legitimacy Jae DiBello Takeuchi, 2023-03-27 This book examines dilemmas faced by second language L2 Japanese speakers as a result of persistent challenges to their legitimacy as speakers of Japanese. Based on an ethnographic interview study with L2 Japanese speakers and their L1 Japanese speaking friends, co-workers, and significant others, the book examines ideologies linked to three core speech styles of Japanese: keigo or polite language, gendered language, and regional dialects, to show how such ideologies impact L2 Japanese speakers. The author demonstrates that speaker legitimacy is often tenuous for L2 speakers and argues that despite increasing numbers of Japanese speaking foreign residents in Japan, native speaker bias remains a persistent issue for L2 Japanese speakers living and working in Japan. This book extends the discussion of native speaker bias beyond educational contexts and, in the process, reveals tensions between how L2 speakers aspire to speak and how L1 speakers expect them to speak. *'American Book Publishing Record'* Cumulative R. Building Education Together (BET) Bruno Guedes, 2024-10-30 Building Education Together (BET) Reducing dropout rates in English as a Foreign Language programs through enhanced collaboration and motivation. In Chile, the high dropout rate of English programs places the country among those with the lowest proficiency levels globally. This study aims to decrease these rates by creating high quality materials based on gamification, Information and Communication Technology (ICT), and collaborative work. The intervention conducted with adult learners in an institute in Santiago revealed that the combination of games, technology, and future-oriented tasks significantly increased motivation and classroom participation while also reducing dropout intentions. The results indicate

that a collaborative and motivational educational approach can improve students confidence and future self image contributing to effective English learning
