Aside from that, reading is a wonderful activity for some people. For others, it is simply dreadful. For this assignment, however, it is necessary.

You are required to choose an American novel and to respond to the attached sheet of questions.

You will have library time to find a book, but your study allow won't break down books (as long as it meets the above criteria). If you are not sure what to look for, just ask some Kansas Agricultural records were there, what to consider.

The Double-Edged Sword

Abstract: A model of the effect of the number of people in a group on the number of people who will conform to a majority is presented. The model is based on the idea that the probability of a person conforming to a majority is a function of the number of people in the majority and the number of people in the group. The model is tested using data from Asch's line judgment task. The results show that the model fits the data well, and that the number of people in a group has a significant effect on the number of people who conform to a majority.
