

Answer Key To Vista SuperSite Lesson 2

Introduction

Introducing Vista through Windows Setup has always represented a challenge to Vista users. Before Vista, Vista's language support was limited to the Windows XP language pack and the Windows XP Service Pack 2 (SP2) language pack. The Vista language pack was not available until the Windows XP SP2 language pack was released. This meant that Vista users had to wait until the Windows XP SP2 language pack was released to be able to use Vista. The Vista language pack was released on the same day as the Windows XP SP2 language pack, but it was not available until the Windows XP SP2 language pack was released.

At Vista's launch, users had to wait for the Vista language pack to be released. The Vista language pack was released on the same day as the Windows XP SP2 language pack, but it was not available until the Windows XP SP2 language pack was released. This meant that Vista users had to wait until the Windows XP SP2 language pack was released to be able to use Vista. The Vista language pack was released on the same day as the Windows XP SP2 language pack, but it was not available until the Windows XP SP2 language pack was released.
