Bentley,Renate Bridenthal,Anand A. Yang,2005-08-31 The essays presented here reflect recent widespread interest in reconsidering the political geographical and cultural boundaries conventionally observed by area specialists and others They intentionally range widely through time and space dealing with diverse issues and contexts but each highlights the very general theme of cross cultural interaction Although they draw heavily on area studies the contributors seek to put previously separate bodies of scholarship in dialogue with one another by exploring those interactions that have historically linked world regions Four general themes are especially prominent in this volume and the essays develop sophisticated positions on each On the issue of agency and structure they offer useful guidance toward recognizing the importance of both human agency and historical structures in historical processes On the theme of states and their roles in cross cultural interactions they acknowledge that states do not entirely control their own destinies but nevertheless deeply influence the development of these exchanges sometimes decisively so Regarding the theme of the global and the local they emphasize the reciprocal influence of global dynamics and local circumstances and agree that analyses must take both into account to be successful Finally all of the essays allow that the

theme of cross cultural interaction is crucial to understanding the world and its development through time Contributors C A Bayly Sven Beckert Jerry H Bentley Renate Bridenthal Charles Bright Michael Geyer Alan L Karras Adam McKeown Colin Palmer Stephen H Rapp Jr Caroline Reeves John O Voll K ren Wigen Anand A Yang *Meeting the Challenges to Measurement in an Era of Accountability* Henry Braun, 2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4 8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
