Concise Introduction to Econometrics Philip Hans Franses, 2002-12-12 In this short and very practical 2002 introduction to econometrics Philip Hans Franses guides the reader through the essential concepts of econometrics Central to the book are practical questions in various economic disciplines which can be answered using econometric methods and models The book focuses on a limited number of the essential most widely used methods before going on to review the basics of econometrics The book ends with a number of case studies drawn from recent empirical work to provide an intuitive illustration of what econometricians do when faced with practical questions Throughout the book Franses emphasises the importance of specification evaluation and implementation of models appropriate to the data Assuming basic familiarity only with matrix algebra and calculus the book is designed to appeal as either a short stand alone introduction for students embarking on an empirical research project or as a supplement to any standard introductory textbook **Handbook of**

Airline Strategy Gail F. Butler, 2001 *Econometric Analysis by Control Methods* Gregory C. Chow, 1981 *Internet Use and Psychological Well-Being Among Children and Adolescents* Yangu Pan, Zhaojun Teng, Daniel Tan Lei Shek, Chun Chen, 2024-01-22 Internet use e g smartphone use social media use is ubiquitous in our daily lives and plays an increasingly important role in human well being Today s adolescents and their parents spend significant amounts of time on technological devices such as smartphones especially during COVID 19 In this year new research shows that nearly half of American teenagers say they use the Internet almost constantly 95% of American teens have smartphones and about 54% of teens said it would be somewhat hard to give up social media Hence further research on the relationship between Internet use and psychological well being among children and adolescents is worth pursuing At the same time a new interest in this area of research is parental technoference which was defined as regular interruptions to real time face to face communications interactions or time spent together among family members because of parental use of technology Technoference has become a common phenomenon in many families with children and evidence has been identified that extended parental time on

technological devices e.g smartphones could have negative effects on parent child relationships and children s wellbeing For example parental phubbing is regarded as a typical parental technoference and this term is used widely in some countries around the world which has been demonstrated to be detrimental to their children s developmental outcomes and cause various psychological health problems
