Asian English Language Classrooms Handoyo Puji Widodo, Alistair Wood, Deepti Gupta, 2017-06-14 The teaching of English in the Asian context is always challenging and dynamic because both teachers and learners have diverse linguistic and cultural backgrounds. Equally important where English is not widely used outside the classroom, English language classrooms are an authentic site of learner engagement. For these reasons, for all those concerned with contemporary English language teaching, *ELT in Asia: Asian English Language Classrooms Where Theory and Practice Meet* provides an account of theoretical orientations and practices in the teaching of English to multilingual speakers whose primary language is not English. While covering the fundamental ELT areas, e.g. the teaching of language skills, educational literature, the use of technology in ELT, the role of pragmatics in ELT, social psychology of the language classroom, and language classroom management, with which every language teacher and teacher trainer must be concerned, this volume showcases how particular orientations shape ELT practices. We believe that practicing English teachers must have a heightened awareness of the theory behind their practice. At the same time, the theoretical stance must be firmly anchored in actual classrooms. Containing newly commissioned chapters written by well-regarded and emerging scholars, this book will appeal not only to beginning teachers or teachers in training but also to established teachers around Asia where English is used as a lingua franca. If you are a student teacher of English or an English teacher who would like to see what other progressive teachers like you are doing across Asia, this is the book you have been looking for. *The Athenaeum*, 1866

The Secularization of Baptism Mark G. McKim, 2025-01-31 Does God actually do anything in baptism? Is it more than just a symbol? Most early Baptists would have answered yes. Most Baptists today would answer no. How and why did this change happen, and does it matter? Providing thorough documentation of the changing understandings of baptism among American, Canadian, and English Baptists from the 1600s to the present day, *The Secularization of Baptism* demonstrates that four factors led to the symbolic-only position becoming dominant. These were: suspicion in reaction to Roman Catholicism of the idea of God revealing himself through the physical; the influence of the Enlightenment and embarrassment with claims that God could be acting in the world today; reaction against the Oxford Movement; and reaction against the understanding of baptism advocated by the Disciples of Christ/Campbellites. The now-dominant symbolic-only position so focuses attention on what the believer is doing in baptism that God is seen as largely absent from and doing nothing through the rite. In effect, believers' baptism has been secularized. A carefully reasoned biblical and theological argument is made for a return to the Regular Particular Baptist view that God is both profoundly spiritually present and active in baptism, while at the same time rejecting the sacramentalist position advocated by a small number of mid-twentieth and twenty-first century Baptists, such as H. Wheeler Robinson, George Beasley Murray, Stanley K. Fowler, and Anthony R. Cross.

Common Sense Questions About Learners Gerard Giordano, 2017-05-24 Parents asked educators about their children's learning. Frustrated when they were ignored, they asked

politicians to put pressure on the educators They were then surprised when the politicians provided personal advice about the optimal way to nurture learning They were even more surprised when the politicians prescribed changes to instruction curriculum textbooks technology school safety teacher retention student behavior school funding and even the menus for school cafeterias More frustrated than ever they intensified their barrage of common sense questions *Challenges and Impacts of Religious Endowments on Global Economics and Finance* Saiti, Buerhan,Sarea, Adel,2019-12-27 Poverty is one of the top problems the Muslim community faces today A scholastic approach towards a solution based on the values and cultural contexts of the Muslim community holds great importance and significance to the Islamic civilizations and modern economic and cultural applications in the world Challenges and Impacts of Religious Endowments on Global Economics and Finance is a pivotal reference source that examines the role of waqf and similar endowments in Islamic financial systems and how these religious endowments impact global economics and finance While highlighting topics such as Islamic finance risk management and economic development this publication explores adopting Islamic approaches to contemporary socio economic issues and the methods of content analysis and meta analysis methods This book is ideally designed for professionals economist regulators financial analysts academics researchers and postgraduate students seeking current research on modernized Islamic economic models in order to tackle the problem of fiscal deficiency Athenaeum and Literary Chronicle ,1866
