From Martyrs to Murderers Robert L. Dahlgren,2017-04-13 In *From Martyrs to Murderers* the author explores the connections between the dark unflattering representations of public schools teachers and teaching in popular Hollywood films and the conservative attacks on public education that have culminated in a generation of neo liberal standards reform measures The author s analysis is based on a survey of 60 movies that feature significant interactions between public school teachers and their students This study employed a textual analysis method involving viewing the films alongside original script material which reveals that the narratives involving public schools during the late 20th century and early 21st century are distinct from those involving other types of schools or eras Rather than the romantic figures of earlier portraits such as Eve Arden s beloved Our Miss Brooks in the 1940s and 1950s radio and television serial these teachers are consistently portrayed as negative archetypes thus providing a rationale for the school reform agenda of the 1980s The sheer repetition of these damaging images in Hollywood products of the period made the American public more susceptible to the deceptive arguments outlined in *A Nation at Risk* the seminal 1983 report that provided the blueprint for the standards reform movement that has dominated education policy for the past generation This work thus develops upon the critical perspectives of educational historians and social studies educators who have probed this turning point in the history of American schooling It also offers an alternative means of viewing the reality of life in the nation s public institutions **The Creator's Code** Amy Wilkinson,2015-02-17 Based on in depth interviews with more than 200 leading entrepreneurs a lecturer at the Stanford Graduate School of Business identifies the six essential disciplines needed to transform your ideas into real world successes Each of us has the capacity to spot opportunities invent products and build businesses even 100 million businesses How do some people turn ideas into enterprises that endure Why do some people succeed when so many others fail The Creator s Code unlocks the six essential skills that turn small notions into big companies This landmark book is based on 200 interviews with today s leading entrepreneurs including the founders of LinkedIn Chipotle eBay Under Armour Tesla Motors
